

Evelyne Barthélemy

Attention to: Prime Minister Anthony Albanese  
Australian Government

Dear Madam, Sir,

We, worldwide citizens can no longer tolerate and accept the suffering of animals during transportation and especially overseas.

The commitment of the Australian government to ban the live export of sheep creates a huge hope and expectation. You cannot go back. It will be also an example for all the other countries.

In addition, as we know, the cruelty is unfortunately systemic during transports, the live export is to be banned for all animals, and especially for the cattles.

Please fulfil your commitment for sheep and open the road for future by banning all live export of animals.

Thanking you in advance for your positive action,

With my best regards,

Evelyne Barthélemy
