

END LIVE SHEEP EXPORTS

To all concerned,

Please be advised I and many others believe that the live sheep export trade is inhumane, distressing, and cruel - I am astounded that it is still going on!

I will never support any government that participates in this cruel behavior and degrades humanity.

Please do everything you can to stop it immediately.

It shouldn't even be up for discussion - where is your kindness and common sense?

Regards,

Nada Steele
