

Hi, my name is Olenkka Ascárate, I am writing to you to urge you to ban sheep exports and cattle exports. This is Abomination. Remember what happened in Romania, when thousand of sheep died of suffocation and only Four Paws could help some of the survivors. This cause an indescribable pain for everybody and even in New Zeland, the animal protection group SAFE ask us in 2020 to sign letters to the former prime minister Jacinda to urge her to ban live exports, that became a reality and Now in 2023, live exports is officialy ban in that country. Please, do the right thing, and follow what New Zeland did, and ban live exports not only of sheeps but also of cattle. This animals suffer during the transport, without air, to arrive to a country in which they are going to be murdered. This is ABOMINATION. GOD SAYS YOU SHALL NOT MURDER, SO FULFILL THIS COMMANDMENT NOW AND BAN LIVE EXPORTS. DO FOR THR ANIMALS. And also promote VEGANISM AND MAKE A HUGE STEP TO THE HISTORY OF THE WORLD THAT REMEMBER THE SEVERAL STEPS THAT HAVE TAKEN TO PUT AND END TO ANIMAL SLAVERY. THANKS.
