

To the Australian government  
I implore you to end the live sheep trade  
now to end the suffering of sentient  
beings on a horrendous boat trip in  
extreme temperatures only to be  
violently slaughtered at the end of the  
journey.

I have demonstrated my disregard for  
this cruel trade for over 40 years and  
here we are at last seeing sense that  
sheep are not just a commodity.

New Zealand and Brazil have seen the  
way forward by banning live animal  
exports.

We are as intelligent and modern in  
thinking the same way and can commit  
to ending this trade asap.

I thank you Mr Albanese for being brave  
to stop this trade.

I voted your party in on this one reason  
alone and hope it remains so.

Yours truly

Tina Maddison,
