Q8. Grounds of objectionA submission against one or more of the wine GIs must be based on at least one of the four grounds of objection.	The EU GI name is used in Australia as the name of a grape variety, plant variety, or an animal breed.
Q9. Please provide further details, based on the grounds of objection for each GI. (If submission based on existing trade mark please provide trade mark number. If submission based on unregistered trade mark please provide evidence of use on Australia).	<p>It is absolutely appalling that some one is able to change the name of an existing grape variety in order to have that name removed from a wine label, wine grape growers in the Riverina are having an exceeding hard time making a return due to the Chinese tariffs and 3 successive years of La Nina weather events. Prosecco is a relatively new variety to be planted in the region with the oldest vineyards being less than 10 years of age, to pull the rug on this now would be to put more pressure on already struggling growers by impacting the value and returns of their investment. I am very worried about the mental health of our growers once vintage has finished and they have a chance to sit down do the sums, so please don't put extra pressure on our industry by allowing Prosecco to become a GI in Italy.</p>
