**Q28. Other** Any other information on the impacts EU GIs may have on Australian businesses or industry.

As a small, variety-specific producer, I am responding on behalf of my own business but many of my colleagues and other Prosecco producers will be much more severely impacted by any Italian decision to protect the name "Prosecco". This would create a difficult precedent which if taken to its logical conclusion could make business almost impossible outside the country to which the protection applies.
