Grape growers

Q7. **Please select which EU wine geographical indication (GI) your submission is against**

Prosecco

Q8. **Grounds of objectionA submission against one or more of the wine GIs must be based on at least one of the four grounds of objection.**

The EU GI name is used in Australia as the name of a grape variety, plant variety, or an animal breed.

Q9. **Please provide further details, based on the grounds of objection for each GI. (If submission based on existing trade mark please provide trade mark number. If submission based on unregistered trade mark please provide evidence of use on Australia).**

Prosecco is a grape variety and not a GI and should not even be considered for protection. Where would this lead to? All other grape varieties could then be attacked in the same way with disastrous consequences. This should be fought by the strongest possible means and we should be enlisting the support of all other grape producing countries on the basis that they could be next. A united front against the EU by all other grape producing countries is what will send the strongest message that these sort of ploys will not succeed.

Q10. **Would you like to make a second selection of EU wine geographical indications (GI)?**
