The imported grape variety was imported some 30 years ago and with the acceptance that it could be grown without any conditions. Australian wineries have grown and developed Proceso to world standard. Should this be retracted the cost to the Australian winemakers will run into many tens of millions of dollars and will set the industry back a decades as well as re-establishing an alternative marketing commercial grape variety brand name. The Australian Government has a duty to stand up to this below the belt European reaction.

Q28. **OtherAny other information on the impacts EU GIs may have on Australian businesses or industry.**

Australia produces wines of all variety and to World standard. Wineries employ hundreds of thousand workers. Anything and everything needs to be done to protect not only the corporate entities ie; Penfolds Lindermans as well as the Mum & Dad wineries. The wine industry has been an active employer from the 1940's up until today and needs to be protected at all costs.
