Well..in 2016 clima5e started changing faster than usual! In 2018 glaciers started melting! In 2020 climate gone becuse it was suposed to do something begore that! Ice on Antarctica is not reviving and its very dangerous! Stop all exploatation as coal mining! Earth entities arw overfeeded by constant exploatation!.Stop rockets going into space! Initiate cleaning dirt in the space instead! Elon Musk is very dangerous man! He is comvinced that he is right but he is dangerous villain and plenty billionaires! Stop them! Remember that rocketsb havent any more mission in space! All of that damaged proper functioning ! And catastrophical events could occur! Trust that all of this is not ok!

Yours sincerely,

[REDACTED]
