Community Engagement Review

Subject:

Submission to the Community Engagement Review

As an employer of yourself and other politicians, I wish to assert the need for positive climate action NOW! To that end, there is an imperative for us to create and utilise new community based renewable energy infrasytructure.

With the right incentives, and a positive lead from government, the whole planet, not just this country or my state, will reap the benefits. This is more important for my grand children than for myself, being as I am now over 75 year of age, but it is still important to me that we hand to future generations a planet that's livable, rather than a destroyed shell.

Yours sincerely,

[REDACTED]
