

**Q7. Do you support the proposed workplace exposure standard (WES) for diesel particulate matter (DPM) to protect workers from the adverse health effects of exposure to diesel engine emissions (DEE)?**

Yes

**Q8. What are your reasons for your response to Question 1? Please provide evidence or information to support your response.**

Making the workplace safer for everyone in all areas

**Q9. Is there an alternative WES to DPM as respirable elemental carbon, or additional WES that should be considered to protect workers from DEE? Please provide evidence or information to support your response.**

unsure as not thoroughly researched to date.

**Q10. What changes would you need to make in your workplace (over and above any controls currently in place) to ensure workers and others at the workplace are not exposed to levels of DPM above the proposed WES? Please include in your response: i. a description of the control measures currently in place at your workplace(s) to minimise exposure of workers and others to DEE.ii. details of any costs to implement the WES for DPM (e.g., upgrade of ventilation systems in area X, costing approximately \$XXX).**

Upgrade ventilation systems in our side loading warehouses and in the workshop areas of the sites we operate (Cost unknown as yet to be priced or validated as to levels in each area currently used.)

**Q11. Is there additional evidence or information that you think should be considered?**

not answered

**Q12. Are there any additional comments you would like to make?**

not answered
