

**Q7. Do you support the proposed workplace exposure standard (WES) for diesel particulate matter (DPM) to protect workers from the adverse health effects of exposure to diesel engine emissions (DEE)?**

Yes

**Q8. What are your reasons for your response to Question 1? Please provide evidence or information to support your response.**

Working in an industry using diesel generators we have no limits to protect the workers.

**Q9. Is there an alternative WES to DPM as respirable elemental carbon, or additional WES that should be considered to protect workers from DEE? Please provide evidence or information to support your response.**

no

**Q10. What changes would you need to make in your workplace (over and above any controls currently in place) to ensure workers and others at the workplace are not exposed to levels of DPM above the proposed WES? Please include in your response: i. a description of the control measures currently in place at your workplace(s) to minimise exposure of workers and others to DEE.ii. details of any costs to implement the WES for DPM (e.g., upgrade of ventilation systems in area X, costing approximately \$XXX).**

Testing of DPM Moving of equipment to further away from workers Change of equipment to electric

**Q11. Is there additional evidence or information that you think should be considered?**

Workers who have raised issues in the past have dismissed as they have no TWA.

**Q12. Are there any additional comments you would like to make?**

not answered
