

# Privacy Collection Notice

Safe Work Australia may collect, use and disclose your personal information when you respond to this survey on non-threshold genotoxic carcinogens (NTGCs).

Your personal information will be collected in accordance with the Privacy Act 1988 (Cth). The personal information we collect includes your name, organisation details, email, telephone number and occupation.

We will use the information collected from survey responses to inform further development of regulatory and non-regulatory options under the model Work Health and Safety (WHS) laws to better protect workers from exposure to NTGCs. We may also contact you for further consultation on the impact analysis of the options, before they are considered by WHS ministers.

If you do not wish to disclose your personal information: you can leave section 1 of the survey ('Your details') blank and may remain anonymous. However, if you choose not to provide this information, we may be unable to contact you for further consultation. If you choose not to provide your occupation, this may limit our understanding of the uses and impact of NTGCs in your workplace.

For more detailed information about how we collect, use and disclose your personal information in relation to surveys conducted on the Engage platform, please refer to the [Engage Privacy Policy](#).

Please see Safe Work Australia's [Privacy Policy](#) for further information about:

- accessing or seeking correction of your personal information,
- disclosure of information to third parties, or
- making a privacy-related complaint.
