Yes, very clear.

Do you see a benefit in aligning the training, qualification and experience requirements of competent persons, licensed asbestos assessors and asbestos removal supervisors for asbestos-related tasks? I think the requirements detailed above are very clear. Any asbestos removal should be carried out by a person who has a certificate that's been verified as competent from a RTO

No, its pretty clear

Details on who / what to do if people want holes cut in asbestos sheeting. We don't carry out the work, but we have lots of enquiries from customers wanting new holes cut into old walls for renovations, air conditioners , lights etc. This practice needs to be identified as a issue with perhaps for information for renovators.
