

We are disagree with a prohibition on the use of engineered stone. We have worked with engineered stone for 7 year , we work on wet machine and cnc machine we maintain an adequate water pressure to make sure water is reaching the materials, we wear the face mask when polishing, using hose water to flush down the residue , we wash face and hand at end of shift and we change work clothes when we finish the shift . With our control above we believe the are safe to work with engineering stone
