

IMAGINE GETTING 85% OF THE FUEL BACK EVERY TIME YOU FILL UP YOUR CAR

Optimise your drying process with the
Exergy pressurised superheated steam dryer (ExergyPSSD®)

SUSTAINABLE

- Water & energy recovery as pressurised steam
- Zero atmospheric emissions & odor-free
- Reduced CO² footprint

LOW MAINTENANCE

- Few rotating parts & minimal maintenance
- Engineered for 24/7 seamless operation
- No risk of fire or explosion

FLEXIBLE DESIGN

- Flexible design & compact footprint
- Suited for various capacities
- Tailored to your requirements

SUPERIOR DRYING RESULTS ACROSS A WIDE RANGE OF RAW MATERIALS

Tailored to meet the high standards
of premium production.

- Marketable by-products
- Ease of storage and transport
- Recovery of high-value minerals
- Ensures 100% sterilized product
- High-value fertilizer and easy to spread
- Increased energy – fuel value 10x higher
