

# vertix PICO Configurations

The PMU Cartridge. Reimagined.

## Product Features

- Slim, tapered design for maximum visibility
- New internal system for superior stability
- Elongated tip reservoir facilitates clean work, optimizes pigment consumption, and prevents splatter
- Wide range of configurations
- Available in 0.20mm (our thinnest) - 0.38mm (our thickest) needle options on the market
- Soft membrane design for an airtight seal and backflow prevention
- Highest quality, medical-grade stainless steel needle
