FK Irons tattoo machines are the only machines on the market with fully interchangeable, modular designs. This unlocks the potential to modify your machine in even more ways, including altering your machine's body/stroke.

The body of your tattoo machine directly correlates to its stroke depth. Changing your wireless machine's body allows you to have multiple stroke options without needing multiple machines.

Hover International Cord **Configurations**

**Type F
International Power Cord**

Retail Price	Used throughout Europe and Russia, Type F outlets are similar to Type E outlets. However, the socket lacks the round, protruding earthing prong. Type F sockets run on 220-240V and are rated up to 16 amps. These outlets generally work with devices with types C, E and F plug-ins.
\$9.95	
Wholesale	
\$6.97	

**Type G
International Power Cord**

Retail Price	Largely used in the United Kingdom, Ireland, Cyprus, Malta, Singapore, Malaysia and Hong Kong, Type G is a three-pronged outlet with all rectangular slots in a triangular pattern. Type G outlets run on 220-240V and are usable by devices up to 13 amps. Type G outlets only work with Type G plug-ins.
\$9.95	
Wholesale	
\$6.97	

**Type I
International Power Cord**

Retail Price	Type I outlets are found in Australia, New Zealand, Argentina and China. Type I plugs features two narrow, flat prongs in the shape of a V. Some Type I outlets and devices also have a third grounding prong. A device with a 10-amp plug-in will work in a 15-amp outlet but not vice versa. All Type I outlets run on 220-240V.

- Ergonomics that will give you relief from joint and tendon pain.
- No need to clamp your fingers or grip with force.
- Multi-tapered to fit effortlessly into the natural groove of your hand.
- Balances the weight of heavy machines to help with needle penetration.
- No need to overwrap.
- Ratchet Disc click system prevents involuntary turning even with heavy machines.
- Tool-less disassembly.
- 3mm center bore is compatible with all built-in drive bar machines.
- Compatible with autoclaves and cold sanitation methods.
- Anodized for durability.
- Engineered and manufactured in the USA by FK Irons.

Distribution Frequently Asked Questions

HOW DO I BECOME AN AUTHORIZED DISTRIBUTOR?

We will only accept established distributors with an active website, catalog and/or brick and mortar location to become a vendor of FK Irons and Spektra products. Official distributors of our products may only sell to professional tattoo artists and shops and may not carry any counterfeit or "knock-off" products. We reserve the right to refuse or cancel any distribution account that does not meet these general requirements.

To apply for a distribution account please contact distribution@fkirons.com.

HOW DO I PLACE AN ORDER AND SUBMIT PAYMENT?

Once you have been approved for a distribution account, you can place your order via email to distribution@fkirons.com. It is recommended to check our website www.fkirons.com prior to ordering to view the most up-to-date stock list to ensure that all items will be available. Once the order is placed, you will receive a formal invoice within 1 business day. All orders must be prepaid in full and will not enter the manufacturing process until payment is made. We accept payments via check (US customers only) or wire transfer. Payments via credit card or PayPal accounts are not currently available. Wire transfer information will be provided along with the first invoice. Please note that any and all transfer fees are the responsibility of the purchaser.

HOW LONG WILL IT TAKE TO RECEIVE MY ORDER?

All FK Irons and Spektra Rotary machines are custom built to order, so there is generally a 10-15 business day lead time on distribution orders. This allows for the products to be built, tested, packaged and shipped. Please note, this estimated lead time begins once payment is made in full. While we always strive to ship orders as quickly as possible, delivery time will depend on current demand, order size and convention agendas. Please take this estimated shipping time into account when placing orders. If orders are placed for conventions or trade shows with specific deadlines, please make a note of this on your order, and we will do our best to ensure prompt delivery.

Distribution Frequently Asked Questions

WHO PAYS SHIPPING, AND HOW WILL MY ORDER BE SHIPPED?

Shipping charges will be the responsibility of the purchaser and can be arranged through any major carrier such as UPS, FedEx, DHL, USPS, etc. If you would like to use your own shipping account, please provide your shipping account number with your first order. If you do not have a shipping account, shipping charges will be added to your invoice and packages will be shipped via UPS unless another carrier is specifically requested.

HOW SHOULD I PRICE FK IRONS/SPEKTRA MERCHANDISE?

The suggested retail prices for all products are listed along with the wholesale price for each item throughout the catalog. Distributors are able to set their own prices for each item at their own discretion, taking into account any import taxes, shipping charges, etc. While we do not restrict the asking price for any machines and/or accessories, we do mandate that no distributor may advertise a price lower than our suggested retail value. Promotions or discounts on our products are allowed as long as no advertised price is lower than our current listed price.

HOW WILL CLIENTS KNOW I AM AN AUTHORIZED DEALER?

Due to the number of counterfeit products on the market, we do our best to keep all clients informed of all Authorized Dealers of FK Irons and Spektra products. We keep an updated list of all current distributors on our website at www.fkirons.com/shop/distributors. As soon as your initial order is shipped, a link to your website will be placed on our authorized distribution list.

Distribution Frequently Asked Questions

WILL I RECEIVE PHOTOS OR ADVERTISING MATERIAL?

As an authorized distributor, you will be provided with access to graphics and marketing materials that will contain high and low res pictures for all products and colors. Distributors will also receive access to digital files of all new flyers/promotional material for new products. Printed flyers, stickers and other promotional material will be included with order shipments as they are available.

AM I ABLE TO SELL FK IRONS MERCHANDISE AT CONVENTIONS?

We encourage our distributors to sell FK Irons and Spektra machines at conventions. There are no restrictions placed on selling machines at tattoo shows, even if we are attending. If you will be attending conventions with our machines and would like specially sized banners to advertise the products, please feel free to let us know. We are also able to make shipping arrangements for additional machine orders or promo materials to convention centers if necessary.

WHAT DO I DO IF A CLIENT HAS AN ISSUE WITH A MACHINE?

All FK Irons and Spektra Rotary machines undergo extensive testing before shipping to ensure that our clients receive the highest quality equipment that is ready to use. All machines come with a lifetime manufacturer's warranty against defects. We will be happy to deal with any questions, concerns or warranty claims directly. If you have a client that experiences a problem with any of our products, please have them contact us directly through email at serVise@fkirons.com or through our toll free telephone number at [1-855-FKIRONS](tel:1-855-FKIRONS).
