Beginner Device

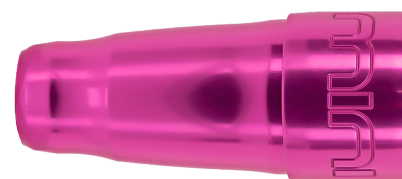

INTERMEDIATE DEVICE & DELICATE POWER

Ultra-compact device with a universal 2.5mm stroke.

Lightweight pen-like, PMU machine, allows the artist full control of their work with no compromises. The Xion Mini's 2.5mm stroke and small, compact, and comfortable design allows artists to achieve maximum precise movements with ease.

Designed, Engineered & Manufactured in the USA.

xion
mini

PRODUCT FEATURES

Cam Size: 2.5mm	Grip Size: 26 - 20 mm tapered
Give: No Adjustment	Connectivity: Wired, RCA Cord
Motor: 6-Watt	Voltage Range: 5 – 10 Volts
Weight: 3.1 oz (87.8 g)	Bluetooth Enabled: No
Compatible Accessories: Airbolt Mini, LightningBolt Unit	

Color:  Bubblegum  Gunmetal

Xion
mini

Small, Lightweight & Reliable

- Most compact machine on the market
- Perfect machine for thick skin procedures
- Center-weighted providing optimal balance and reduced hand fatigue
- Slim, tapered aluminum grip for ergonomic comfort
- 2.5mm stroke to take on all procedures and skin types
- Affordable price point

Small, Lightweight & Reliable

Intermediate-level and ultra-compact device with a universal 2.5mm stroke.

Designed, Engineered & Manufactured in the USA.

REFUEL
CHARGING DOCK

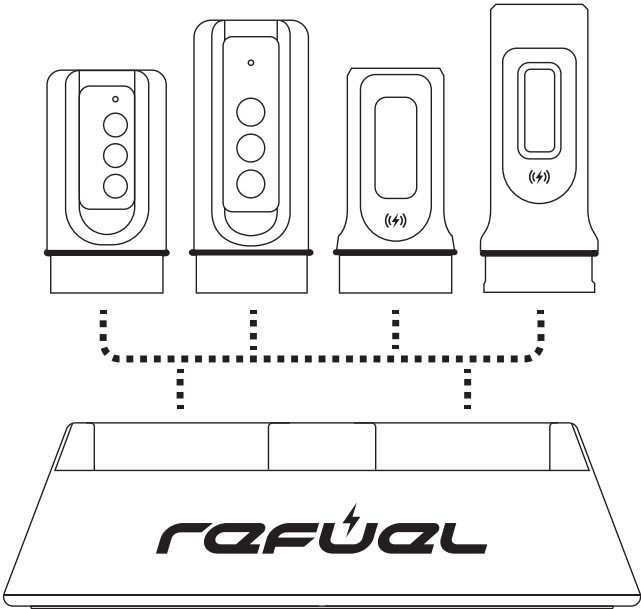

BASE LED INDICATOR

Power Connection: When connected to a power source, the base LED will briefly illuminate green, indicating power is successfully connected (no battery packs should be on the dock at this stage).

Battery Status Indicator: Upon placing a battery pack in either of the two slots, the base LED will turn red to signify charging and green when fully charged.

Independent Side Indicators: The right and left sides of the LED indicator operate independently, displaying the charging status of each respective battery.

Retail price:
\$59.99 / £44.95 / 54.95EUR

Wholesale price: \$41.99

R2FUEL CHARGING DOCK

FEATURES:

- ⚡ LED Charge Status: Red while charging, green when fully charged.
- ⚡ Dual Charging: Powers up to two Powerbolts simultaneously.
- ⚡ Quick Charge: Full charge from 0-100% in under 2.5 hours.
- ⚡ Magnetic Anti-Skid Base: Ensures a stable, slip-free surface.

OPTIMAL PERFORMANCE

For best performance, exclusively use the provided charging accessories, including the Darklab wall adapter and the USB-C cable.

SKU: TAT-3001

TECHNICAL INFORMATION

Output Voltage: 5V

Charger Input: 5V 2A

Maximum Output Current: 2A

COMPATIBLE WITH THE FOLLOWING BATTERY-PACKS:

PowerBolt, PowerBolt +, PowerBolt II, and PowerBolt II+.

REFUEL

CHARGING DOCK

BASIC USAGE INSTRUCTIONS

Charging Capacity: The dock charger is designed to simultaneously charge two battery packs.

Battery Placement: Make sure to align the female USB-C ports in your battery pack with matching male USB-C ports in Refuel charging Dock.

Safe Removal: To remove the battery pack, lift it upwards from the dock charger. Avoid side-to-side shaking to prevent damage to the connector.

REFUEL

FULLY COMPATIBLE WITH
OUR WHOLE POWERBOLT LINE
