

3 Space Descriptions

Multi-Purpose

A large assembly space to provide for dining, athletics, performance, and campus-wide gatherings. This space also supports and engages the community enhancing the role of the school through joint-use opportunities.

Multi-Purpose Room

Dining / PE Court / VAPA Programs

Activities:

Large group assembly, student gathering, cafeteria dining, performance, and physical education learning.

Number of Occupants:

714 Assembly (7 sq.ft. / person)

333 Dining (15 sq.ft. / person)

Unique Considerations

- Accessible from main circulation
- Stairs directly connecting the Stage / Platform to the Multi-Purpose
- Direct outside access to Outdoor Dining. Close proximity to Playfields, Playgrounds, and Visitor Parking.
- (2) Basketball backstops, (2) volleyball floor pole sleeves, wall pads
- Hardwood sports flooring
- Acoustical panels for noise mitigation
- Kitchenette with lockable cabinets, sink, refrigerator, kitchen range, range hood, and microwave oven
- Window coverings with ability to darken space
- Sound system and microphone for assemblies and classes
- Centralized control board that interfaces with a tablet
- Close proximity or direct access to a secure, after-hours entry
- Walls shall be free of all projections with no corners
- Provide acoustical treatment to control sound transmission and internal noise control
- Primary teaching wall should be near the entrance
- Drinking fountains nearby

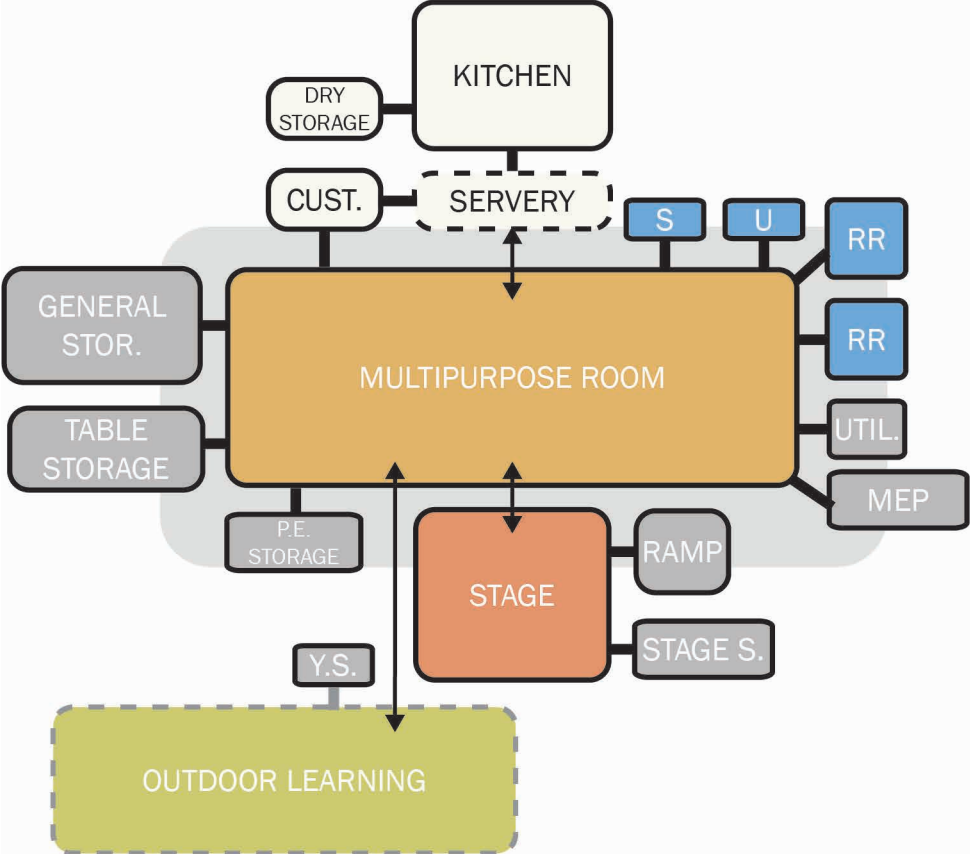

Stage

Activities:

Presentations, dance, drama, and music activities and performances.

Unique Considerations

- Raised stage is an essential component to the school.
- The stage should have a sound system with the ability to support overhead drop mics and wired mics, a reasonable lighting system, curtains and side curtains, with enough wing space to cue students for a small class performance.
- Stage should have a projection screen.
- Stage should seat roughly 100 people. Under-stage storage not needed if other storage is provided. Storage would be located on back wall of the stage.
- A sound partition behind the stage curtain is needed to create acoustic separation to the Multi-purpose room.
