

4GEEKS

AI Strategy Workshop

Accelerate Your AI Transformation. Unlock Business Value.

The **4Geeks AI Strategy Workshop** guides your organization. Our experts collaborate with your team to demystify AI, uncover high-value use cases, and develop a clear, actionable AI strategy for tangible business outcomes.

Key Deliverables:

- AI Opportunity Assessment
- Prioritized AI Use Cases
- High-Level AI Solution Design
- Strategic AI Roadmap
- Risk Assessment & Mitigation Framework

Pricing

1-week intensive program. Includes interactive workshops, presentations, analysis, and collaboration.

\$3,500 USD (One-Time Fee).

Optional Add-on: Rapid Prototyping & Validation, starting from \$12,000 USD (quoted separately).

Forge Your Path to AI-Driven Success.

Generative AI offers vast opportunities. Navigating AI adoption can be challenging.

Why 4Geeks?

- **Expertise:** Practical AI solutions from seasoned practitioners.
- **Collaboration:** Interactive workshops ensuring stakeholder alignment for a robust AI strategy.
- **Clarity & Speed:** Rapidly gain insights and a prioritized AI roadmap (typically 1-2 weeks).
- **Actionable Blueprint:** Move from AI exploration to a concrete action plan and value proposition.
- **Overcome Obstacles:** We help you foster ideation, enable optional rapid prototyping, build collaboration, manage risks, prioritize, and roadmap for a clear action plan.

Our Phased Approach to AI Success.

A structured process for clarity and a concrete plan. Core workshop takes 1-week intensive program (5 business days); For optional prototyping add-on adds 1-2 weeks.

Phase 1: Discovery & Prioritization

- **Define AI Opportunities & Ambition:** Explore relevant AI use-cases, align with your strategic goals, review examples, and set your AI ambition.
- **Prioritize High-Impact Solutions:** Evaluate opportunities (feasibility, ROI, alignment, complexity) and align stakeholders on top AI initiatives for a prioritized list.

Phase 2: Solution Design & Validation

- **Conceptual AI System Design:** Collaboratively outline a high-level design for priority use cases, identifying models, data needs, and architecture, considering ethical AI.
- **Rapid Prototyping (Optional Add-on):** Facilitate a basic prototype/PoC to de-risk, test, gather feedback, and show value.

Follow-Up: Roadmap & Governance

- **Document, Plan & Empower:** Consolidate findings into an AI Strategy Document. Develop a strategic roadmap (goals, milestones, resources). Recommend governance and change management. This is an integral part of the Core Workshop, with findings documented and plans finalized.

Let 4Geeks be your trusted AI partner. Our workshop is your first step to unlocking value. Let's explore what's possible. Contact your account representative or connect with us at sales@4geeks.io
