L12 L, L14 L – AP/SP
L12 L HP – AP/SP

SERIES 133

Safety

Both the AP and SP platform versions are perfectly designed to protect the operator during the working shift. Automatic speed reduction when cornering, automatic braking on releasing the traction control and excellent visibility through the wide mast, all provide assured safety. Electro-hydraulic braking is actuated by the dead man platform or by the emergency stop button and is proportional to the load carried.

Performance

A key strength of the range is productivity. Linde OptiLift® control for a genuine proportional lifting/lowering, load capacities up to 1,400 kg and a powerful 3 kW AC motor with a top speed of 10 km/h laden or unladen, all add up to high performance for a wide range of customer applications.

Comfort

Electric power steering with adjustable steering torque provides effortless manoeuvrability and efficiency. Positive steering feedback results in safe, assured control. Travel speed and steering effort are automatically and progressively adjusted according to the steering angle. Tasks are made easier thanks to generous storage compartments for working tools. The comfortable driving posture of the SP platform ensures a pleasurable working environment.

Linde Material Handling

Reliability

In order to meet the needs of its customers, Linde has developed three different stacker versions, which are designed to provide the optimum solution for individual applications. These ruggedly constructed trucks incorporating tried and tested technology (lifting function etc.) and components, deliver consistent reliability in a unique combination that has already proven its worth with faster, safer load handling, as well as an extended working life in the toughest industrial environments.

Service

The digital multifunction instrument display ensures the operator is always well informed. CAN bus connectivity enables all truck data to be transmitted to a laptop by the service technician. Easy accessibility of all components and maintenance-free AC technology also play an important role in maximising truck uptime.

Equipment

Standard equipment

AP & SP platform	Multifunction backlit instrument display: Safety alarm, maintenance check indicator, battery charge level, hour meter
Linde OptiLift®: proportional control on the tiller	Cushion drive wheel
Power assisted steering with variable steering resistance	Polyurethane single load wheels
Positive steering (drive wheel) feedback	Mast protection: polycarbonate or mesh wired (no extra)
Automatic speed reduction when cornering	Safe operator compartment with padded rests and cushioned full-suspension platform (SP)
3 kW AC motor (maintenance free)	Single handed Linde e-Driver® control (SP)
Electrohydraulic emergency brake acting proportionally to the load weight	Self-centring steering (e-Driver®) (SP)
Key switch or Log in PIN code (no extra)	Folding stand-on platform with side guards (AP)
Dedicated work station (with storage compartments)	Protection -10°C
CAN bus technology	

Optional equipment

Overhead guard ((mandatory if lift height > 1,800 mm)
Load backrest (h = 1,000 mm)
Low speed option when initial lift lowered (Double stacker)
Soft landing of forks
Support for data terminal or barcode reader (Pack n°2)
Drive wheels: polyurethane, cushion non-marking or wet grip
Load wheels: tandem polyurethane, tandem polyurethane greasable
Cold store protection -35°C
Mobile and fixed battery stands (for side battery change)

Other options available on request

Technical data

		Stacker

Features

Platform versions

SP concept

- Operator is protected by wraparound steel profiles
- Perfect driving position at 45° angle with panoramic visibility, a secure and stable position
- Linde e-Driver®: Self-centring steering, ergonomic design matched to the 45° operator stance
- Optimum protection for both hands

AP versions

- Foldable cushioned rider platform
- Integral side guards, platform folds up and down effortlessly

Workstation

- Digital, multifunction, backlit instrument display informs the operator of key truck information
- Truck access by key switch or by PIN code (no-cost option)
- Generous storage compartments are conveniently located for shrink-wrap, work gloves, writing utensils, etc.

OptiLift® control

- Intuitive controllability of the tiller (e-Driver®), as well as all lifting functions
- The proportional OptiLift® control brings quiet smoothness and precision
- Compact, energy efficient, high performance lift unit with no waste of energy

Different drive systems

L 12 LHP:

- Five wheel configuration
- High performance (HP) version
- Superb traction and stability
- Electronically controlled hydraulic suspension active castor wheels
- Side battery change
- Mast height range up to 1,574 mm lift (S/D/T)

L 12 L, L 14 L, L 12, L 14:

- Four wheel configuration
- Excellent stability
- Vertical battery change as standard, optional side battery change
- Mast height range up to 3,824 mm lift (E/S/D/T)

CAN bus connectivity

- Intelligent electronic management of all components for rapid and easy diagnosis
- All truck parameters can be configured by the service technician to match performance to individual applications

AC motor & Energy

- Powerful, high torque drive motor, 3kW at 100% performance
- Moisture and dust-proof, maintenance-free motor
- No rollback on gradient starts
- Top speed of 10 km/h with or without a load; 6 km/h in pedestrian operation (AP)
- Wide range of batteries from 375 Ah (3 PzS) to 500 Ah (4 PzS)
- Battery locking system for side change option secures battery in compartment and simplifies battery changing

Power steering

- Effortless, electric power steering
- Positive steering feedback for assured manoeuvring.
- Automatic speed reduction when cornering
- Steering effort varies according to the turning angle

Brakes

Automatic braking

- On releasing the traction butterfly, with no energy consumption
- By selecting opposite direction of travel

Emergency brake

- Electro-hydraulic
- On pressing the emergency button or by stepping off the dead-man platform
- Hydraulic-assisted system, proportional to the load carried
