

56th OOG SPRING MEETING

2020G

18-21.3.2020 | CARLTON HOTEL, TEL AVIV, ISRAEL

Hosts: Vicktoria Vishnevskia-Dai & Ido Didi Fabian

SCIENTIFIC PROGRAM

17.3.2020

- 16:00-19:00** **YIN Meeting - Delphi Hall, Sacker Faculty of Medicine, Tel Aviv University**
- 16:00-16:10** Introduction: [Natasha Van Poppelen](#) & [Hana Verbin - Levkovich](#)
- 16:10-16:55** **Keynote lecture 1: From idea to a company** - [Gal Markel, Israel](#)
- 16:55-17:40** Talks YIN (Four PhD-students will present their work)
- 17:40-17:50** **Coffee Break**
- 17:50-18:35** **Keynote lecture 2: Can mutant p53 change faces into the guardian of the genome** - [Varda Rotter, Israel](#)
- 18:35-19:00** Discussion

18.3.2020

- 09:00-09:30** Morning Coffee & Registration, **Carlton Hotel, Tel Aviv**
- 09:30-10:54** **OOG 1: Retinoblastoma**
Moderators: [Annette C. Moll](#) & [Tero Kivelä](#)
- 09:30-09:42** Type of RB1 mutation and age at diagnosis of Familial Retinoblastoma screened from birth - [Annette C. Moll, Netherlands](#)
- 09:42-09:54** Mosaic mutations in RB1 gene and their clinical significance for patients with Retinoblastoma - [Olga Yugay, Russia](#)
- 09:54-10:06** Sex, Gender and Retinoblastoma: Analysis of 4,351 patients from 153 countries
[Ido Didi Fabian, Israel](#)
- 10:06-10:18** Metastasis - Associated Mortality according to a multicenter, international collaborative study for AJCC staging of Retinoblastoma
[Ankit Singh Tomar, USA](#)
- 10:18-10:30** Multimodality treatment of Retinoblastoma with subsequent Esthesioneuroblastoma as a secondary cancer - [V. A. Yarovaya, Russia](#)
- 10:30-10:42** Retinocytoma: six stable lesions and one malignant transformation
[A.A Yarovoy, Russia](#)

10:42-10:54	New ocular infection in newborn masquerading an anterior Retinoblastoma Nathalie Cassoux, France
10:54-11:30	Coffee Break
11:30-13:04	OOG 2: Retinoblastoma & more Moderators: Nathalie Cassoux & Pim Graffe
11:30-11:42	Intraocular Medulloepithelioma: phenotypes, clinical and MRI findings Doris Theodora Hadjistilianou, Italy
11:42-11:54	Differentiation between Retinoblastoma and Pseudoretinoblastoma on MR Imaging - Robin W. Jansen, Netherlands
11:54-12:24	OOG Keynote lecture 1: Car T Cell therapy Michal Besser, Israel
12:24-13:04	Meeting opening: Vicktoria Vishnevskia-Dai Welcome from OOG committee Local meeting sponsors: Arnon Afek, Sheba Medical center Dan Gaton, Israel Ophthalmological Society Hana Verbin- Levkovich, Tel Aviv University Honorary Achievements Mordechai Rosner & Jacob Pe'er
13:04-14:30	Lunch
14:30-16:06	OOG 3: Retinoblastoma Moderators: Francis Munier & Doris Theodora Hadjistilianou
14:30-14:42	Targeted intratumoral chemotherapy for salvage treatment of Recurrent Retinoblastoma - Francis Munier, Switzerland
14:42-14:54	Vitreoretinal surgery with Melphalan irrigation for complications of Retinoblastoma treatment - A. yarovoy, Russia
14:54-15:06	Unilateral unifocal advanced Intraocular Retinoblastoma: is it reasonable to adopt intra-arterial as single therapeutic choice? Sonia de Francesco, Italy
15:06-15:18	Adverse cardio-respiratory events during superselective intraarterial ophthalmic chemotherapy for Retinoblastoma in infants Tania Ushakova, Nune Matinyan, Russia.
15:18-15:30	Efficacy and safety of retrobulbar blockade of 0.5% Ropivacaine during eyeball enucleation surgery in children with Retinoblastoma Nune Matinyan, Ekaterina Belousov, Russia
15:30-15:42	Procedure - related risk factors of acute chorioretinal complications in eyes treated with intra-arterial chemotherapy - Christina Stathopoulos, Switzerland
15:42-15:54	Retinoblastoma morphology after local chemotherapy - Olga Ivanova, Russia
15:54-16:06	Overall relapse-free and event-free Retinoblastoma survival Svetlana V. Saakyan, Russia
16:06- 16:45	Coffee Break
16:45-19:10	The BIG 5 in ocular oncology - update session Moderators: Ido Didi fabian & Vicktoria Vishnevskia-Dai
16:45-17:05	Tero Kivelä, Finland : Uveal Melanoma
17:05-17:10	Q&A
17:10-17:40	Francis Munier, Switzerland : Retinoblastoma

17:40-17:45	Q&A
17:45-18:05	Nathalie Cassoux, France : Intraocular Lymphoma
18:05-18:10	Q&A
18:10-18:40	Leonidas Zografos, Switzerland : Conjunctival Melanoma
18:40-18:45	Q&A
18:45-19:05	Steffen Heegaard, Denmark : Ocular Surface Squamous Neoplasia
19:05-19:10	Q&A

19:30 Social Program

19.3.2020

09:00-09:30 Morning coffee & Registration, **Carlton Hotel, Tel Aviv**

9:30-11:06 OOG 4: Uveal Melanoma

Moderators: [Martine Jager](#) & [Alexandre Moulin](#)

9:30-9:42 Assessment of Uveal Melanoma cells chemosensitivity ex vivo
[Alexandre Iu. Tsygankov, Russia](#)

9:42-9:54 The effect of spliceosome inhibitor E7107 on Uveal Melanoma tumour slices and cell lines - [Josephine .Q.N. Nguyen, Netherlands](#)

9:54-10:06 Intraocular biomarkers in Uveal Melanoma: a proteomic study
[Raffaele Parrozzani, Italy](#)

10:06-10:18 Classification systems for Uveal Melanoma - [Martine Jager, Netherlands](#)

10:18-10:30 Accuracy of The Cancer Genome Atlas Classification compared to the American Joint Committee on Cancer Classification for metastasis prediction in Uveal Melanoma patients - [Maya Eiger-Moscovich, USA](#)

10:30-10:42 Small Choroidal Melanoma malignant vasculature identification: Indocyanine green angiography VS Doppler ultrasound imaging - [Elena Samkovich, Russia](#)

10:42-10:54 MOLES: a system for distinguishing Choroidal Nevi from Melanoma
[Theodora Gkika, England](#)

10:54-11:06 Histopathologic analysis of scleral tracts after endoresection and FNAB of Uveal Melanoma in experiment - [V. A. Yarovaya, Russia](#)

11:06-11:30 Coffee Break

11:30-13:28 OOG 5: Uveal Melanoma

Moderators: [Ehud Reich](#) & [Leonidas Zografos](#)

11:30-11:42 Combined treatment of juxta-and parapapillary Choroidal Melanoma
[Anush. G Amiryman, Russia](#)

11:42-11:54 Medium to long-term results of Baerveldt shunt surgery for glaucoma secondary to anterior Uveal Melanoma treated with proton therapy
[Ann Schalenbourg, Switzerland](#)

11:54-12:06 Scleral melting after Ru-106 brachytherapy for Uveal Melanoma
[Pablo Galarza, Israel](#)

12:06-12:18 Protonbeam irradiation in the Netherlands; the Leiden experience
[Gre Luyten, Netherlands](#)

12:18-12:24 Uveal Melanoma metastatic to the contralateral eye
[Francesco Lanza, Italy](#)

12:24-12:32	The long history of a posterior pole Choroidal Melanoma and its extra scleral extensions; Facts, misinterpretations and mistakes <u>Vincenzina Mazzeo, Italy</u>
12:32-12:44	Transcatheter arterial chemoembolization with isolated metastases of Uveal Melanoma in the liver - <u>I. Trofimov, Russia</u>
12:44-12:58	Uveal Melanoma patients reported outcomes (PROMS) <u>Vicktoria Vishnevskia-Dai, Israel</u>
12:58-13:28	OOG keynote lecture 2: Systemic treatment for Uveal Melanoma <u>Jacob Schachter, Israel</u>  Bristol-Myers Squibb
13:28-14:30	Lunch
14:30-15:30	OOG 6: Intraocular Tumors Moderators: <u>Jacob Pe'er</u> & <u>Gre Luyten</u>
14:30-14:42	Ruthenium brachytherapy of retinal vasoproliferative tumors <u>Leonidas Zografos, Switzerland</u>
14:42-14:54	Vasoproliferative tumours of the retina in long-term observation <u>Iwona Rospond-Kubiak, Poland</u>
14:54-15:00	The first application of Gamma-Knife radiosurgery for diffuse Choroidal Hemangioma in a patient with Sturge-Weber syndrome - <u>R. Loginov, Russia</u>
15:00-15:12	Optical coherence tomography as a useful tool for differentiation of leukemic infiltration and other lesions of the optic nerve in patients with Hemoblastosis <u>Elena Grishina, Russia</u>
15:12-15:18	Bilateral Brachytherapy with Ru-106 achieving local control of Bilateral Anterior plasmacytoma - <u>Ehud Reich, Israel</u>
15:18-15:30	Non-Neovascular sub retinal fluid, secondary to Choroidal Osteoma controlled with rescue therapy of Intravitreal Afilbercept - <u>Ehud Reich, Israel</u>
15:30-16:12	OOG 7: Drugs and ocular side effects Moderators: <u>Zohar Habot-Wilner</u> & <u>Shahar Frenkel</u>
15:30-15:42	A novel type of corneal epitheliopathy from a new class of antibody-drug conjugate anti-cancer treatments - <u>Shahar Frenkel, Israel</u>
15:42-15:54	Ocular side effects of novel biological therapies <u>Vicktoria Vishnevskia-Dai, Israel</u>
15:54-16:06	Uveitis induced by biological agents used in cancer therapy <u>Gal Antman, Israel</u>
16:06-16:12	Uveitis induced by Brentuximab Vedotin – A novel adverse response to Antibody Drug Conjugate Therapy - <u>Gal Antman, Israel</u>
16:12-16:30	Coffee Break
16:30-18:00	OOG Business Meeting
20.3.2020	
08:15-08:45	Morning coffee & Registration, Carlton Hotel, Tel Aviv
8:45-10:39	OOG 8: Ocular adnexa and orbit Moderators: <u>Steffen Heegaard</u> & <u>Daniel Briscoe</u>
8:45-8:57	Histopathological and molecular features of a Conjunctival Caruncular Deep Penetrating Nevus - <u>Rob.M. Verdijk, Netherlands</u>

8:57-9:09	Genetic make up of Conjunctival Melanoma <u>Natasha Van Poppelen, Netherlands</u>
9:09-9:21	Conjunctival Melanoma is a specific Mucosal Melanoma subtype - <u>Lauge Hjorth Mikkelsen, Denmark</u>
9:21-9:33	Epigenetic alterations in Conjunctival Melanoma: 5 HMC and TET2 loss - <u>Alexandre Moulin, Switzerland</u>
9:33-9:45	Topical interferon alpha 2a for ocular surface tumors - <u>Jacob Pe'er, Israel</u>
9:45-9:57	Different genetic alterations in human papillomavirus (HPV)-negative and positive conjunctival carcinomas - <u>Ingvild Ramberg, Denmark</u>
9:57-10:09	Anatomo-clinical correlations of conjunctival tumors with an OCT swept-source <u>Sacha Nahon-Estève, France</u>
10:09-10:39	OOG keynote lecture 3: Systemic treatment for eyelid & Conjunctival Melanoma - <u>Nethanel Asher, Israel</u>  Bristol-Myers Squibb
10:39-11:00	Coffee Break
11:00-12:24	OOG 9: Ocular adnexa and orbit Moderators: <u>Mordechai Rosner</u> & <u>Rob.M. Verdijk</u>
11:00-11:12	Automatic image processing in histologic slides of conjunctiva with or without OSNN - <u>Tal Sharon, Israel</u>
11:12-11:24	Pleomorphic fibroma of the Tenon capsule <u>Victoria Mouvet, Switzerland</u>
11:24-11:36	Muir-Torre syndrome (MTS) associated eyelid sebaceous neoplasms screening patterns - <u>Maya Eiger-Moscovich, USA</u>
11:36-11:48	Incidence of orbital exenteration: a nationwide study in France from 2006 to 2018 - <u>A. Martel, France</u>
11:48-12:00	Use of an artificial dermal template for the reconstruction of the exenterated sockets: preliminary results in 8 patients - <u>A. Martel, France</u>
12:00-12:12	Management of IgG4-related orbital disease: single center experience. <u>S. Kleyankina, Russia</u>
12:12-12:24	Removal of complex apical orbital tumor using combined approach <u>Daniel Briscoe, Israel</u>
12:24-13:15	Brunch Departure to the desert trip

SILVER SPONSORSHIP:

BRONZE SPONSORSHIP:

SUPPORTING COMPANIES:
