

The International Colorectal Disease Symposium

Joint with the Annual Meeting of the Israel Society of Colon and Rectal Surgery

February 25-28, 2020 David Citadel Hotel, Jerusalem, Israel

Scientific Program - Pre-Conference Day

The Fluorescence Imaging Day at the International Colorectal Disease Symposium February 25, 2020

With the endorsements of:

ISFGS - International Society for Fluorescence Guided Surgery

www.isfgs.org

With the support of:

07:30-09:30	Session 1 - The Value of Fluorescence Imaging for Perfusion <i>Moderator: Steve Wexner – USA , Hagit Tulchinsky-Israel</i>
07:30-07:45	The problem of anastomotic leaks <i>Oded Zmora - Israel</i>
07:45-08:00	Traditional methods to avoid leaks <i>Abe Fingerhut - France</i>
08:00-08:15	Principles of ICG and fluorescence imaging <i>Alex Chanin, Medtronic Visualization</i>
08:15-08:30	Results of ICG perfusion assessment <i>Giovanna DaSilva - USA</i>
08:30-08:45	New methods of perfusion assessment <i>Daniel Sherwinter - USA</i>
08:45-09:00	How to gain acceptance for ICG fluorescence imaging in your hospital <i>Venkatesh Munikrishnan - India</i>
09:00-09:30	Panel Discussion Q&A
09:30-10:00	Break, Refreshments

The International Colorectal Disease Symposium

Joint with the Annual Meeting of the Israel Society of Colon and Rectal Surgery

February 25-28, 2020 David Citadel Hotel, Jerusalem, Israel

10:00-11:45 Session 2 - innovating with industry to improve outcomes
Moderator: Raul Rosenthal – USA , Manish Chand- United Kingdom

10:00-10:15 Moving Fluorescence Guided Surgery Towards the Standard of Care
Mike Broome, Vice President, Sales. Diagnostic green

10:15-10:30 Advanced Imaging in Colorectal Surgery – Current and Future State
Chad Evans, Area Vice President, Global Customer Excellence, Stryker
Matt Mckittrick - Director Clinical Development, Stryker

10:30-10:45 Medtronic EleVision™ IR Platform – The Power of Higher Sensitivity & Quantification
Alex Chanin, Senior Director, Medtronic Visualization.

10:45-11:00 Enabling Minimally-Invasive Colorectal Surgery with da Vinci Technology
Paul Millman, Vice President, Advanced Development, Intuitive Surgical

11:00-11:15 KARL STORZ - Continuing the Journey of innovation, Imaging and Solutions...
Marc Amling, Executive Director Electro-Mechanical & Imaging Systems, KARL STORZ

11:15-11:45 Panel Discussion Q&A

11:45-12:40 Lunch

The International Colorectal Disease Symposium

Joint with the Annual Meeting of the
Israel Society of Colon and Rectal Surgery

February 25-28, 2020 David Citadel Hotel, Jerusalem, Israel

12:40-15:00 Session 3 - Other Important Applications of Fluorescence Imaging

Moderator: Oded Zmora – Israel , Melissa Alvarez-Downing- USA

12:40-12:55 Lymph node assessment in colorectal surgery

[Mariana Berho - USA](#)

12:55-13:10 Improving lymph node harvest with ICG

[Manish Chand – United Kingdom](#)

13:10-13:25 Robotic use of ICG

[Avi Belizon - USA](#)

13:25-13:40 TaTME and the role of ICG

[Sam Agarwal - USA](#)

13:40-13:55 Improving outcomes by fluorescence-guided HIPEC and PIPEC

[Delia Cortes-Guiral - Spain](#)

13:55-14:10 Fluorescence imaging can replace ureteric stents

[Fernando Dip - USA](#)

14:10-14:25 ICG as an educational tool to improve outcomes

[Raul Rosenthal - USA](#)

14:25-15:00 Panel Discussion Q&A

Adjourn
