

SOLAR SHADES FOUNDING FATHERS' PARK

HECTOR HOUSE PLAZA

227 Taylor St., Punta Gorda

This park commemorates the place where the City of Punta Gorda was incorporated. And now, this historic landmark features the latest in technology – a solar canopy. In addition to generating clean energy, the solar array provides shade to those who sit in the beautiful landscaped sitting garden.

VISIT HECTOR HOUSE PLAZA FOR:

Gallery Walk

Sweet Stroll

FUN FACTS ABOUT THE PLAZA:

- 15,000 annual visitors
- 1,700 FPL SolarNow participants in Charlotte County who supported this installation

FROM OUR COMMUNITY:

“Hector House Plaza commemorates our history, and now it also plays a part of the future of renewable energy because of the solar canopy. The canopy is a practical addition to the plaza, because it provides much-needed shade for visitors, especially on Saturday mornings during the Farmers Market. We’re glad our community can see solar energy here in this popular spot.” - Melissa Reichert, Communications Manager for the City Manager’s Office in Punta Gorda

PLANTING THE SEEDS FOR A BRIGHTER FUTURE.

FPL SolarNow solar trees and canopies are innovative solar structures created by the community, for the community. They provide shade and harness the power of the sun to generate emissions-free energy that benefits all of us, while encouraging future generations to learn more about solar energy.

About the FPL SolarNow Program

- 70+**  Locations at parks, zoos and museums
- 50 MILLION**  Visitors annually to SolarNow locations
- 100**  Solar trees and canopies around Florida
- 2,281 MWh**  Energy generated through solar trees and canopies
- 52 THOUSAND**  Total number of participants
