

SOLAR TREES ARE “HOP-PENING” AT THE BREVARD ZOO

8225 North Wickham Road, Melbourne
BREVARD COUNTY

At the *Lands of Change: Australia and Beyond* exhibit at the Brevard Zoo, kangaroos find shade “down under” solar trees. The Zoo inspires generations about environmental conservation; now, visitors to this community jewel will learn more about solar power with three solar trees — unique additions to learn about the importance of natural resources in a fun way.

VISIT THE BREVARD ZOO FOR:

Party for the Planet

5Ks

Boo at the Zoo

Environmental Summit

Jazzoo

Holiday Events

FUN FACTS ABOUT THE ZOO:

- **500,000** annual visitors
- **4,000** FPL SolarNow participants in Brevard County supported this installation

FROM OUR COMMUNITY:

“We want our visitors to learn about the importance of solar energy, as this critical renewable energy source aligns with our mission of wildlife conservation through education and participation. The children that come to Brevard Zoo and see the solar trees within our Kangaroo Walkabout can be inspired by these innovative and artistic structures.”

— Keith Winsten
Executive Director

PLANTING THE SEEDS FOR A BRIGHTER FUTURE

FPL SolarNow solar trees and canopies are innovative solar structures created by the community for the community. They provide shade and harness the power of the sun to generate emissions-free energy that benefits all of us while encouraging future generations to learn more about solar energy.

About the FPL SolarNow Program

-  **70+** Locations at parks, zoos and museums
-  **50 million** Annual visitors to SolarNow locations
-  **100** Solar trees and canopies around Florida
-  **2,281 MWh** Energy generated through solar trees and canopies
-  **52 thousand** Total number of participants
