FROM OUR COMMUNITY:

“Oftentimes, people think that solar power seems so far away. But what we’re proving is that it’s right here, it’s present, it’s taking place on a daily basis. All of us in Florida are constantly looking for ways to use the sun. This is a tremendous way to do it. The FPL solar trees at our Brightline stations make so much sense in so many different ways.”

— Ben Porritt
Senior Vice President, Corporate Affairs

PLANTING THE SEEDS FOR A BRIGHTER FUTURE

FPL SolarNow solar trees and canopies are innovative solar structures created by the community for the community. They provide shade and harness the power of the sun to generate emissions-free energy that benefits all of us while encouraging future generations to learn more about solar energy.

About the FPL SolarNow Program

-  **70+** Locations at parks, zoos and museums
-  **50 million** Annual visitors to SolarNow locations
-  **100** Solar trees and canopies around Florida
-  **2,281 MWh** Energy generated through solar trees and canopies
-  **52 thousand** Total number of participants
