

A PLAYGROUND DESIGNED AROUND SOLAR

MELROSE PARK

2520 NW 31st St., Miami

MIAMI-DADE COUNTY

A solar canopy is the cornerstone of a new playground at Melrose Park, offering a covered spot for parents watching children play, and clean energy that feeds back into the local community. With almost two acres of a green oasis in this urban Allapattah neighborhood, Melrose Park is a local institution and thriving hangout.

FROM OUR COMMUNITY:

“Melrose Park is a wonderful spot for a solar canopy. As children enjoy spending time on the playground, they can also learn about the many benefits of solar energy. With all of the SolarNow structures coming on display in the City of Miami, we’re thrilled that it not only generates clean, renewable energy, but that it also boosts awareness of solar to our residents.”

- Barbie Hernandez,

Director of the City of Miami Parks and Recreation Department

PLANTING THE SEEDS FOR A BRIGHTER FUTURE.

FPL SolarNow solar trees and canopies are innovative solar structures created by the community for the community. They provide shade and harness the power of the sun to generate emissions-free energy that benefits all of us while encouraging future generations to learn more about solar energy.
