Multi tasking

Your Freesat box can record one channel while you watch another. Or you can record two different channels, and play back a recording you made earlier.

The box will need to be connected to the satellite dish with two cables. If you only use one cable, this feature won't be available.

Pressing standby while recording won't stop the recording. Your Freesat box will go into standby when the recording has finished.

Record from when you started watching

Your Freesat box automatically saves up to 30mins of the channel you're watching, even if you're not recording.

So if you decide that you want to record a programme part way through, press `®` and it will record from the point you tuned to that channel.

Handy auto prompts

Recording a series

If the programme is part of a series, you'll be asked whether to set the whole series to record (Screen 1).

HD alternative

If the programme is also on in HD, you'll be asked whether to record the High Definition version.

Solving a recording conflict

Your Freesat box will help you solve the recording conflict by searching the TV listings (Screen 2).

If the programme is on at another time in the TV listings your Freesat box will suggest it.

See what you've set to record

Press RECORDINGS on your remote control and navigate to the 'planned' section.

All the programmes you've set to record are listed chronologically by the recording date.

When a programme is being recorded or is set to record the recording icon ⓡ will appear next to it in the TV guide.

Connect to the internet

BROADBAND ROUTER

FREESAT BOX

ETHERNET CABLE
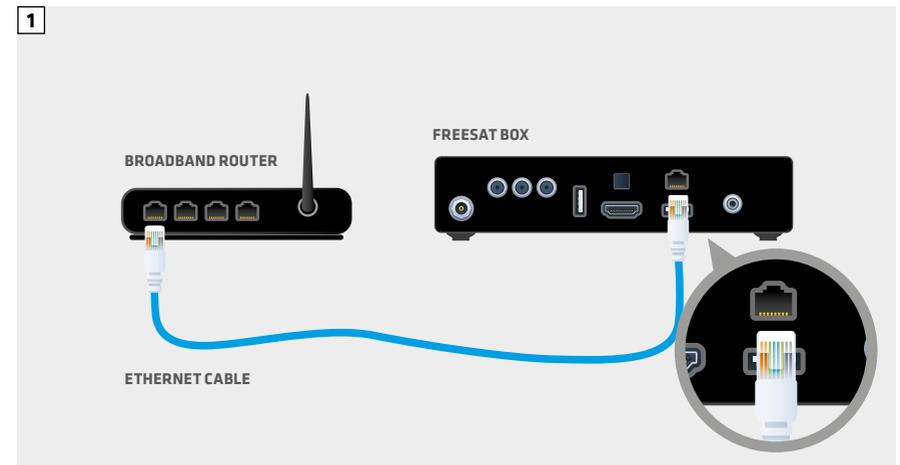

Connect to the Internet and open up a whole new part of the TV Guide.

You'll be able to Roll Back through the TV Guide on some channels to catch up on programmes you've missed over the last 7 days. You'll also be able to enjoy the On Demand services on Freesat.

Minimum 2Mps broadband speed required.

The best way to connect is with an Ethernet cable. Slot one end into the Ethernet port on the back of the box, and the other end into an Ethernet port on your router (Illustration 1). That's it, you're connected.

If your router is too far away to use a cable, you can connect to your home Wi-Fi network. The box will automatically display available Wi-Fi networks and you'll just need to enter your password.

Or, try using a pair of Homeplug Adapters. They're a safe and convenient way to access the Internet around your house using the electrical wiring.

Accessibility

These services make programmes available to visually impaired and hard of hearing customers.

Digital subtitles, audio description and signed programmes are provided by the broadcasters, but whenever they are available Freesat customers can use them.

Digital subtitles

Subtitles are a text version of the dialogue in a programme. Look out for SUB in the TV Guide which indicates they are available for that programme.

To turn subtitles on while watching live TV, press SUB . To turn them off, press SUB again.

Audio description

Audio description is an additional audio service which describes what is happening on screen, including language, movements, actions and expressions. Look out for AD icon in the TV Guide which indicates they are available for that programme.

To turn audio description on while watching live TV, press AD . To turn it off, press AD again.

Signed programmes

Some broadcasters provide a signed version of popular programmes for hard of hearing viewers. Look out for SL in the TV Guide which indicates it is a signed programme.

Safety Instructions

1. Mains Supply

a) Operate this product only from the type of power supply indicated on the marking label. If you are not sure of the type of power supplied to your home, consult your local power company.

b) Disconnect the product from the mains before you start any maintenance or installation procedures.

2. Overloading

Do not overload a wall outlet, extension cord or adapter as this may result in electric fire or shock.

3. Liquid

The product should not be exposed to liquid of any kind. In addition, no objects filled with liquid should be placed on the apparatus.

4. Cleaning

a) Disconnect the product from the wall outlet before cleaning

b) Use a light damp cloth (no solvents) to dust the product.

5. Ventilation

a) The slots on top of the product must be left uncovered to allow proper airflow into the unit.

b) Do not stand the product on soft furnishings or carpets.

c) Do not stack electronic equipment on top of the product.

6. Attachments

Do not use any unsupported attachments as these may be hazardous or cause damage to the product.

7. Lighting, storm or not in use

Unplug the product from the wall outlet and disconnect the antenna during a thunderstorm or when left unattended and unused for long periods of time. This will prevent damage to the unit due to lightning and power-surges.

8. Extraneous objects

Do not insert anything through the openings in the unit, where they can touch dangerous voltage points or damage parts.

9. Replacement of parts

When replacement of parts is required, be sure the service technician uses replacement parts specified by the manufacturer or those that have the same characteristics as the original part. Unauthorized substitution may result in additional damage to the unit.

10. Connection to the aerial

Disconnect the product from the mains before connecting or disconnecting the cable from the aerial. Failure to do so can damage the aerial.

11. Connection to the TV

Disconnect the product from the mains before connecting or disconnecting the cable from the TV. Failure to do so can damage the TV.

12. Location

a) Place the product indoors to avoid exposing it to lightning, rain or sun. Do not place it near a radiator or heat register.

b) We recommend that the product has 10 cm clearance from any other appliances susceptible to electromagnetic influences, such as a TV or a VCR.

c) Do not block the openings with any object, and do not place the product on a bed, sofa, rug, or other similar surface.

d) If you place the product on a rack or a bookcase, ensure that there is adequate ventilation and that you have followed the manufacturer's instructions for mounting.

e) Do not place the product on an unstable cart, stand, tripod, bracket, or table where it can fall. A falling product can cause serious injury to a child or adults, and serious damage to the appliance.

Warning

1. To avoid damage of the power cord or plug

a) Do not modify or process the power cord or plug arbitrarily.

b) Do not bend or twist the power cord.

c) Make sure to disconnect the power cord holding the plug.

d) Keep heating appliances as far as possible from the power cord in order to prevent the cover vinyl from melting.

e) The mains plug, as a disconnection device, shall remain readily accessible by the user.

2. To avoid electrical shock

a) Do not open the main body.

b) Do not insert metal or inflammable objects inside the product.

c) Do not touch the power plug with wet hands.

d) Disconnect the power cord in case of lightning.

e) Unplug power cable to install the antenna cable.

3. To avoid damage of product

Do not use the product when it is out of order. If you continue to use the product when defective, serious damage can be caused. Make sure to contact your local product distributor if the product is out of order.

4. To avoid damage of the USB hard drive

a) Do not turn the power off suddenly while the USB hard drive is running.

b) The company shall not be liable for any corruption of data on USB hard drive caused by carelessness or misuse.

Troubleshooting

Before contacting your local service centre, please read the tips below carefully. If the problem persists after completing the following procedure, please contact your local product distributor or service centre for further instructions.

1. The product will not switch on

a) Check the main power cable and make sure it is plugged into a suitable power outlet.

b) Check that the mains supply is switched on.

c) Connect the power cable to a different power outlet.

2. No picture

a) Make sure that the product is powered on and in operation mode. (Press the STANDBY button)

b) Make sure that the AV cables is firmly connected to theTV.

C) Make sure that the antenna cable is properly connected to the product.

d) Be sure to activate channel search.

e) Check the brightness level of the TV.

f) Check if the channel is currently on air.

3. Poor picture/sound quality

a) Make sure there is no mobile phone or microwave oven near the product.

b) Keep the power cable and the RF cable apart from each other.

Note: If the antenna is covered with snow or the RF is weakened by heavy rain, the condition of the sound and picture may temporarily be poor. However, poor sound and picture quality due to weather conditions cannot be accepted as a malfunction of product.

c) Change the satellite dish for a larger one as this will increase the signal levels received.

d) Replace the LNB with a lower noise factor in case the noise factor is too high.

e) Replace the LNB with a new one in case it is damaged or out of order.

f) Install the antenna in an obstacle-free place.

h) Check the signal levels and adjust your antenna if the level is too low. The signal level may be affected by weather conditions.

4. No or poor sound

a) Check that your AV cable is connected correctly.

b) Check the volume levels of your TV set and the product.

c) Check if the product or TV is on mute.

5. Remote control does not operate

a) To control the product, make sure that the STB mode is selected on the remote control.

b) To control the product, the top end of the remote control should point directly towards the receiving part of the product.

c) Remove and reinsert the batteries in the remote control.

d) Replace the batteries in the remote control for a new set.

6. Cannot make reservations

a) Check that no previous reservations are conflicting with the new reservation.

7. Channel search does not work

a) Make sure that the antenna setting in the menu is correct.

8. Cannot record progammes

a) Check if the USB hard drive is connected for recording purpose.

b) The USB hard drive is full. Delete unnecessary programmes and make space for new recording.

c) Check if the recording conflicts with another channel. Stop the current recording or wait until the recording is finished.

d) Check that the product is switched on when the recording starts.

Factory Reset

To perform a complete reset of your box go to Settings , then System Settings . Select Factory default and Reset system .

You will need to enter your PIN to proceed (the default pin is 0000)

Once you've entered your PIN the box will restart and you will need to begin the installation process.

---

1. Select the TV button on the remote control. The button will blink once.

2. Keep pressing the button for 3 seconds until the button lights on.

3. Enter the 3-digit code. Every time a number is entered, the button will blink. When the third digit is entered, the button will blink twice.

4. If a valid 3-digit code is entered, the product will power off.

5. Press the OK button and the mode button will blink three times. The setup is complete.

6. If the product does not power off, repeat the instruction from 3 to 5.
