This is a Great Book for the BeginnerBy Customeri ReDesign and Stage Homes for a living and am always interested in how other Designers think and create spaces. This is a Great Book for the Beginner. Libby includes templates for space planning and all sorts of wonderful ideas and details for those attempting DIY projects. I also love her sophistication. This is a woman who understands "Her Style" and even dresses in a way that projects it. I am very glad I purchased this book and will keep it in my Library.
