

GEORGIA CLIMATE CONFERENCE

MINIMIZING GEORGIA'S RISKS.
MAXIMIZING GEORGIA'S FUTURE.

November 7-8, 2019 | Emory Conference Center Hotel | Atlanta, Georgia

Join leaders from the public, private, and non-profit sectors as they share progress and identify new opportunities to help Georgia take practical steps to respond to a changing climate.

The 2019 Georgia Climate Conference is the inaugural event of the Georgia Climate Project, an initiative founded by **Emory University**, the **University of Georgia** and **Georgia Tech**, in partnership with four other Georgia universities, aimed at supporting and accelerating Georgia's efforts to take practical steps to minimize the risks and maximize the opportunities associated with a changing climate.

The event will bring together 300 key influencers and decision-makers representing multiple sectors and areas of expertise to collaborate, raise awareness of work across the state, highlight progress and identify opportunities to do more.

The Georgia Climate Conference will advance the four strategic pillars of the Georgia Climate Project:

Stronger Network

Connecting experts from across the state.

Science

Synthesizing what we know and analyzing what we don't

Stronger Conversations

Fostering a healthy, practical, nonpartisan discussion about what climate change means in Georgia and what we do about it

Solutions

Taking practical steps to respond to climate change and its impacts

We invite you to join the Georgia Climate Conference as a Corporate or Business Sponsor.

Event promotions begin in March, and ticket sales begin in April. Join this critical conference for Georgia today, and maximize the benefit of early publicity. Final deadline for sponsorship is November 1.
