Defining Comparison Groups
There are two general categories of external comparison groups: competitors and comparables.

Competitor comparisons for an educational institution are defined as those who potentially or actually draw students away from the target institution. In Gallaudet’s case, the most likely institutions would be NTID and CSUN. Using a competitor analysis as the basis for defining a benchmark has both advantages and disadvantages. The drawbacks to using a competitor peer group for Gallaudet is that NTID and CSUN do not appeal to exactly the same student body as Gallaudet and both of these institutions publicly available information about its deaf students is reported inside the larger institution’s data, thus making accessing the data problematic.

Another approach to establishing a comparison group is to first define a set of criteria and then look for similar institutions. This approach also has advantages and disadvantages. In opting for the comparable institutions as the reference point, there are at least two possible categories for basing a comparison.

Functional Variables and
Student Body Characteristics

Functional variables could be defined by
- Public or private 4 year and above
- Carnegie classification (Masters I)
- Similar size (less than 2000 students)

Student Body Characteristics could be defined by
- Admissions policy (Open)
- Percentage of minority group enrollment
- Average ACT score

Generating the Benchmark Colleges

Functional Peers (Peer I)
Functional Peers are 19 small colleges and universities around the United States. They enroll fewer than 2500 undergraduates and between 250 and 525 graduate students. They tend to be religious connected schools such as Alverno College in Milwaukee, Wisconsin (Catholic) or Oklahoma Christian University. They tend to have more white undergraduates than Gallaudet (70% to 61%); more women undergraduates (61% to 53%), and fewer women graduate students (69% to 78%). They are functionally similar because of their size and degree granting status (small MA-granting).

Functionally Similar (n=19)
Alverno College
College of Mount Saint Vincent
Cornerstone University
Holy Names University
La Sierra University
Lynchburg College
Lynn University
Malone College
Mount St Mary's College
Northwest Nazarene University
Oklahoma Christian University
Prescott College
Regis College
Saint Martin's University
Salve Regina University
University of Rio Grande
University of Saint Francis-Ft Wayne
Utica College
Walsh University

Student Body Peers (Peer II)

Student body peers are 11 small colleges around the United States with student bodies roughly similar to Gallaudet. Unlike the functional peers this group tends to be either private, non-religious or small state institutions with a percentage of minority students, ACT admissions scores, and an open admissions policy.

These institutions admit 68% of applicants versus 70% for Gallaudet. Their 25%ile ACT score is 17 versus 14 for Gallaudet. Their 75%ile ACT composite score is 23 versus 18 for Gallaudet. 59% of its undergraduates are females and 66% are white.

Similar Student Body (n=11)
Belmont Abbey College
Chestnut Hill College
Franklin College
Fresno Pacific University
Louisiana College
Pfeiffer University
Reinhardt College
Spalding University
Texas Wesleyan University
University of Dubuque
Warner Southern College

Carnegie 2010 Peers (Peer III)

In 2011-2012 OIR began a review of our peer institutions. Our goal was to utilize a common tool for selection of peers: the Carnegie classification. Our selection of Carnegie peers is based on the
The 2010 classification system has multiple parallel classifications to provide greater flexibility in selecting peers. For Gallaudet peers, a series of refining selections is done using both the basic framework and the "elective" classifications in the new Carnegie system. The following criteria were selected to yield ten Carnegie peer institutions:

- **Enrollment Profile** [HU] High Undergraduate
- **Undergraduate Profile** [FT4/I] Full-time four-year, inclusive
- **Size and Setting** [L4/HR] Small four-year, highly residential

**Carnegie 2010 Peers (n=6)**

- Alcorn State University
- Bay Path College
- Eastern Nazarene College
- Elizabeth City State College
- Lincoln University of Pennsylvania
- Claflin University
