---

### About Your Engagement Indicators Report

Engagement Indicators (EIs) provide a useful summary of the detailed information contained in your students' NSSE responses. By combining responses to related NSSE questions, each EI offers valuable information about a distinct aspect of student engagement. Ten indicators, based on three to eight survey questions each (a total of 47 survey questions), are organized into four broad themes as shown at right.

<i>Theme</i>	<i>Engagement Indicator</i>
<i>Academic Challenge</i>	Higher-Order Learning
	Reflective & Integrative Learning
	Learning Strategies
	Quantitative Reasoning
<i>Learning with Peers</i>	Collaborative Learning Discussions with Diverse Others
<i>Experiences with Faculty</i>	Student-Faculty Interaction Effective Teaching Practices
<i>Campus Environment</i>	Quality of Interactions Supportive Environment

### Report sections

Three views offer varied insights into your EI scores:</p> <ul style="list-style-type: none"> <li><b>Mean Comparisons</b><br/>Straightforward comparisons of average scores between your students and those at comparison group institutions, with tests of significance and effect sizes (see below).</li> <li><b>Score Distributions</b><br/>Box-and-whisker charts show the variation in scores <i>within</i> your institution and comparison groups.</li> <li><b>Summary of Indicator Items</b><br/>Responses to each item in a given EI are displayed for your institution and comparison groups.</li> </ul> <p>Comparisons of your students' average scores on each EI with those of students at institutions whose average scores were in the top 50% and top 10% of 2013 and 2014 participating institutions.</p> <p>Detailed information about EI score means, distributions, and tests of statistical significance.</p> |
|--|---|

### Interpreting comparisons

Mean comparisons report both statistical significance and effect size. Effect size indicates the practical importance of an observed difference. An effect size of .2 is generally considered small, .5 medium, and .8 large. Comparisons with an effect size of at least .3 in magnitude (before rounding) are highlighted in the Overview (p. 3).

*EIs vary more among students within an institution than between institutions*, like many experiences and outcomes in higher education. As a result, focusing attention on average scores alone amounts to examining the tip of the iceberg. It's equally important to understand how student engagement varies within your institution. Score distributions indicate how EI scores vary among your students and those in your comparison groups. The Report Builder—Institution Version and your *Major Field Report* (both to be released in the fall) offer valuable perspectives on internal variation and help you investigate your students' engagement in depth.

### How Engagement Indicators are computed

Each EI is scored on a 60-point scale. To produce an indicator score, the response set for each item is converted to a 60-point scale (e.g., Never = 0; Sometimes = 20; Often = 40; Very often = 60), and the rescaled items are averaged. Thus a score of zero means a student responded at the bottom of the scale for every item in the EI, while a score of 60 indicates responses at the top of the scale on every item.

For more information on EIs and their psychometric properties, refer to the NSSE Web site: [nsse.iub.edu](http://nsse.iub.edu)

### Engagement Indicators: Overview

Engagement Indicators are summary measures based on sets of NSSE questions examining key dimensions of student engagement. The ten indicators are organized within four themes: Academic Challenge, Learning with Peers, Experiences with Faculty, and Campus Environment. The tables below compare average scores for your students with those in your comparison groups.

Use the following key:

- ▲ Your students' **average** was significantly higher ( $p < .05$ ) with an effect size at least .3 in magnitude.
- △ Your students' **average** was significantly higher ( $p < .05$ ) with an effect size less than .3 in magnitude.
- No significant difference.
- ▼ Your students' **average** was significantly lower ( $p < .05$ ) with an effect size less than .3 in magnitude.
- ▼ Your students' **average** was significantly lower ( $p < .05$ ) with an effect size at least .3 in magnitude.

#### First-Year Students

### Academic Challenge: First-year students

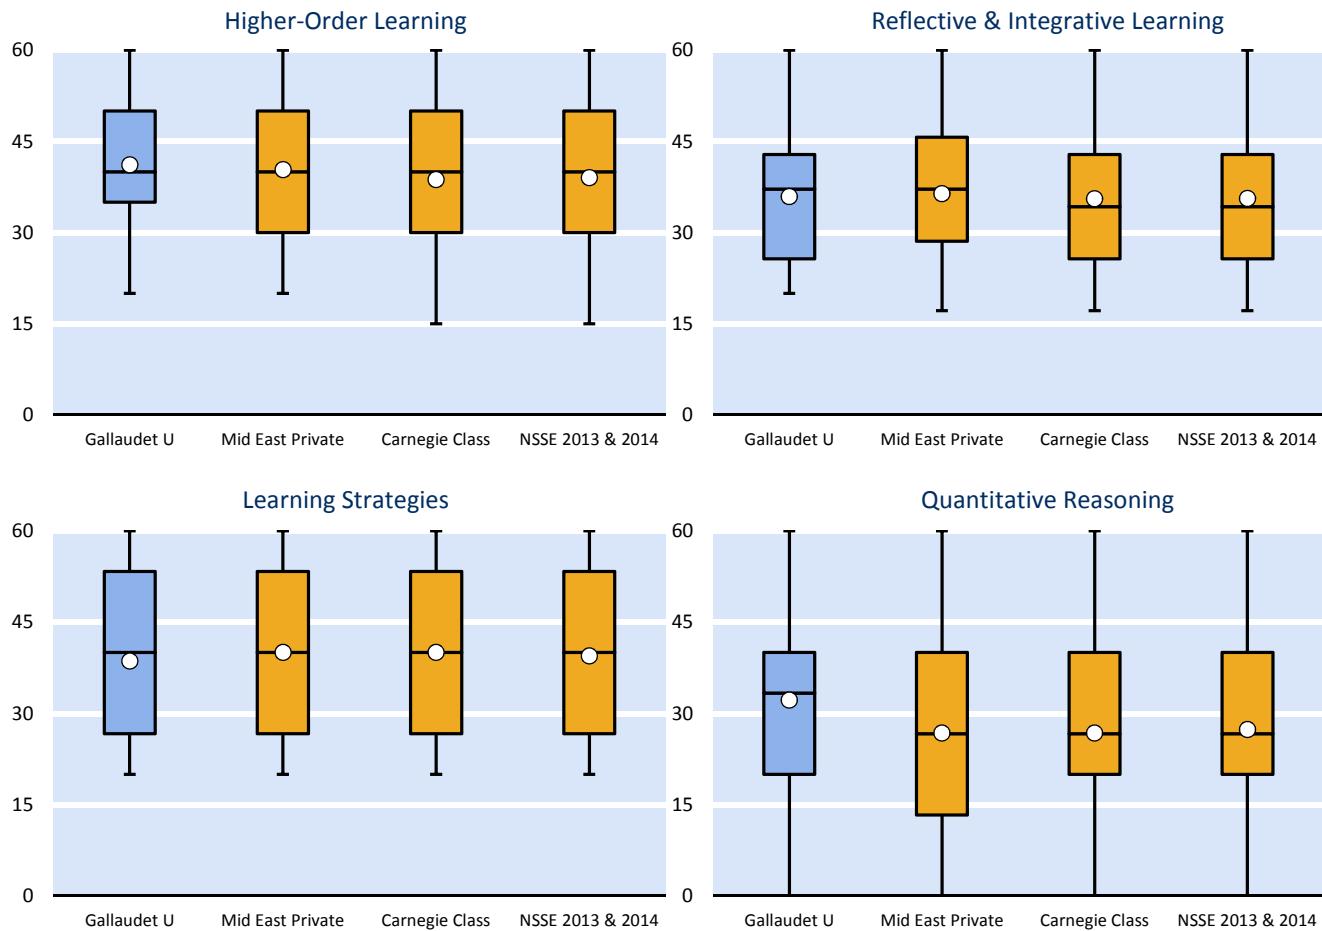

Challenging intellectual and creative work is central to student learning and collegiate quality. Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning. Four Engagement Indicators are part of this theme: *Higher-Order Learning, Reflective & Integrative Learning, Learning Strategies, and Quantitative Reasoning*. Below and on the next page are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Gallaudet U	Your first-year students compared with					
		Mid East Private		Carnegie Class		NSSE 2013 & 2014	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Higher-Order Learning	41.1	40.4	.06	38.7 *	.17	39.0	.15
Reflective & Integrative Learning	36.0	36.4	-.04	35.6	.03	35.6	.03
Learning Strategies	38.6	40.1	-.10	40.0	-.10	39.5	-.06
Quantitative Reasoning	32.2	26.8 ***	.32	26.8 ***	.33	27.4 **	.30

Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the Overview page are based on effect size and p before rounding.

#### Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score. Refer to Detailed Statistics for your institution's sample sizes.

## Academic Challenge: First-year students (continued)

### Summary of Indicator Items

	Gallaudet U	Mid East Private	Carnegie Class	NSSE 2013 & 2014
<b>Higher-Order Learning</b>				
Percentage responding "Very much" or "Quite a bit" about how much coursework emphasized...	%	%	%	%
4b. Applying facts, theories, or methods to practical problems or new situations	76	75	71	73
4c. Analyzing an idea, experience, or line of reasoning in depth by examining its parts	78	76	71	72
4d. Evaluating a point of view, decision, or information source	77	73	71	70
4e. Forming a new idea or understanding from various pieces of information	78	72	70	69
<b>Reflective &amp; Integrative Learning</b>				
Percentage of students who responded that they "Very often" or "Often"...				
2a. Combined ideas from different courses when completing assignments	60	57	57	56
2b. Connected your learning to societal problems or issues	49	55	53	53
2c. Included diverse perspectives (political, religious, racial/ethnic, gender, etc.) in course discussions or assignments	57	53	50	50
2d. Examined the strengths and weaknesses of your own views on a topic or issue	61	64	62	63
2e. Tried to better understand someone else's views by imagining how an issue looks from his or her perspective	76	67	66	66
2f. Learned something that changed the way you understand an issue or concept	66	67	64	65
2g. Connected ideas from your courses to your prior experiences and knowledge	74	79	77	77
<b>Learning Strategies</b>				
Percentage of students who responded that they "Very often" or "Often"...				
9a. Identified key information from reading assignments	81	83	81	80
9b. Reviewed your notes after class	56	65	67	65
9c. Summarized what you learned in class or from course materials	66	65	64	63
<b>Quantitative Reasoning</b>				
Percentage of students who responded that they "Very often" or "Often"...				
6a. Reached conclusions based on your own analysis of numerical information (numbers, graphs, statistics, etc.)	56	51	50	52
6b. Used numerical information to examine a real-world problem or issue (unemployment, climate change, public health, etc.)	51	37	37	38
6c. Evaluated what others have concluded from numerical information	49	37	35	37

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

#### Academic Challenge: Seniors

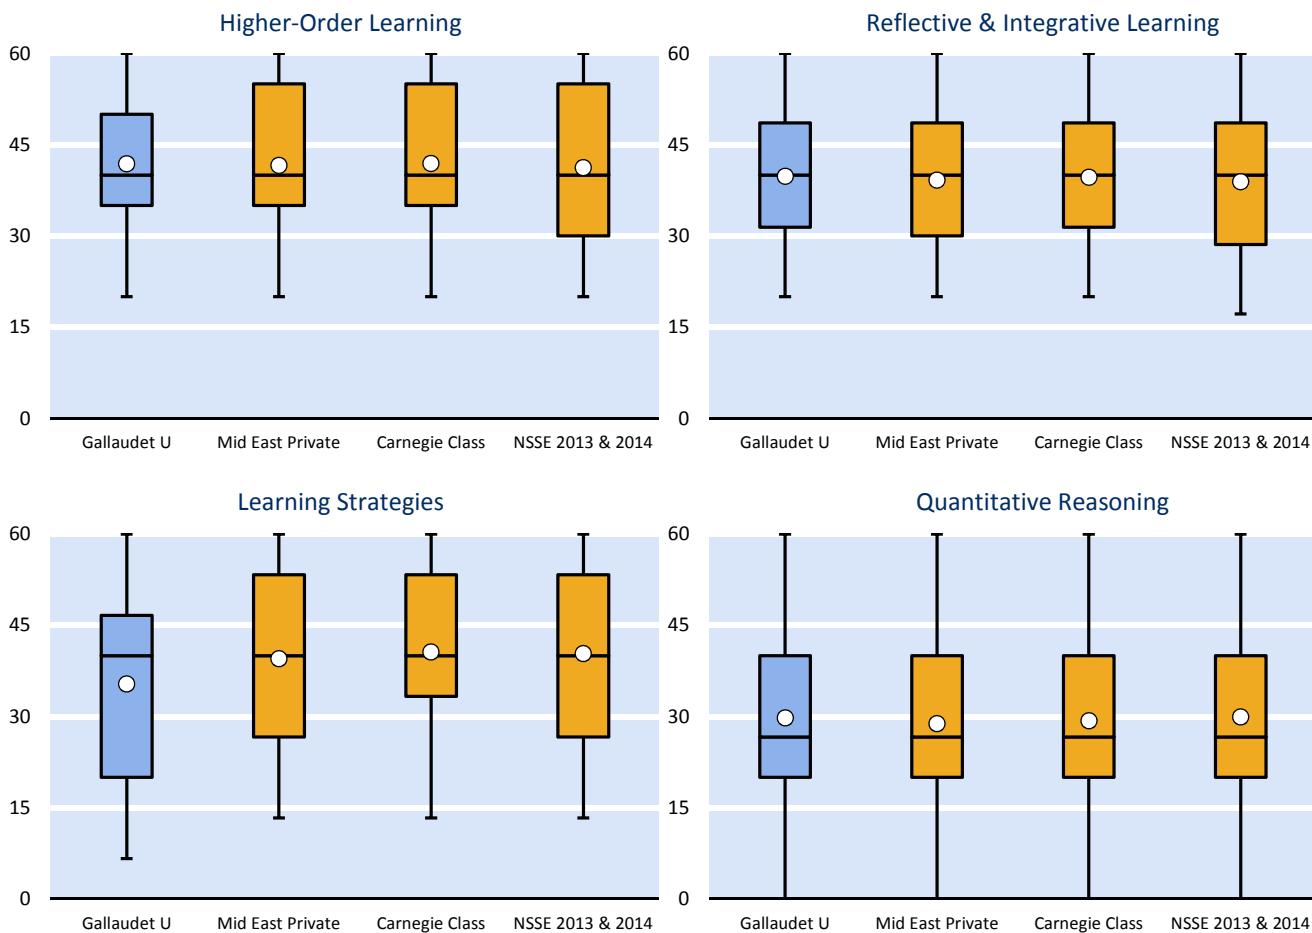

Challenging intellectual and creative work is central to student learning and collegiate quality. 6a. Reached conclusions based on your own analysis of numerical information (numbers, graphs, statistics, etc.)	53	52	53	55
6b. Used numerical information to examine a real-world problem or issue (unemployment, climate change, public health, etc.)	44	42	44	44
6c. Evaluated what others have concluded from numerical information	46	43	43	44

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Learning with Peers: First-year students

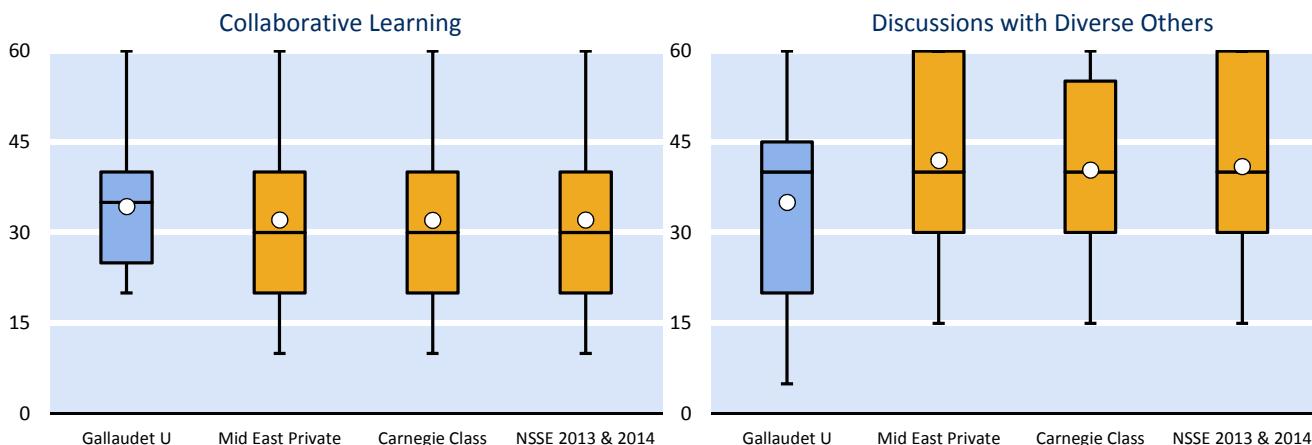

Collaborating with others in mastering difficult material and developing interpersonal and social competence prepare students to deal with complex, unscripted problems they will encounter during and after college. Two Engagement Indicators make up this theme: *Collaborative Learning* and *Discussions with Diverse Others*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Gallaudet U Mean	Your first-year students compared with			
		Mid East Private Effect size	Carnegie Class Effect size	NSSE 2013 & 2014 Effect size	
Collaborative Learning	34.3	32.1 .16	32.0 .17	32.1	.16
Discussions with Diverse Others	35.0	41.9 *** -.44	40.3 ** -.33	40.9 ***	-.37

Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the Overview page are based on effect size and p before rounding.

#### Score Distributions

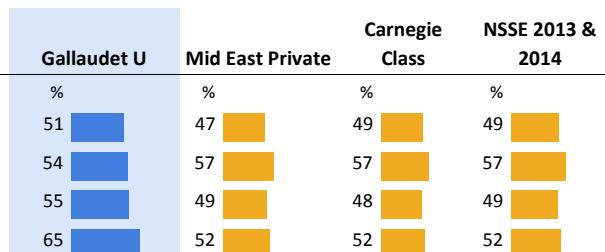

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score. Refer to Detailed Statistics for your institution's sample sizes.

#### Summary of Indicator Items

##### Collaborative Learning

Percentage of students who responded that they "Very often" or "Often"...

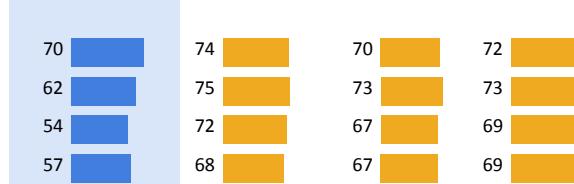

- 1e. Asked another student to help you understand course material
- 1f. Explained course material to one or more students
- 1g. Prepared for exams by discussing or working through course material with other students
- 1h. Worked with other students on course projects or assignments

##### Discussions with Diverse Others

Percentage of students who responded that they "Very often" or "Often" had discussions with...

- 8a. People from a race or ethnicity other than your own
- 8b. People from an economic background other than your own
- 8c. People with religious beliefs other than your own
- 8d. People with political views other than your own

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Learning with Peers: Seniors

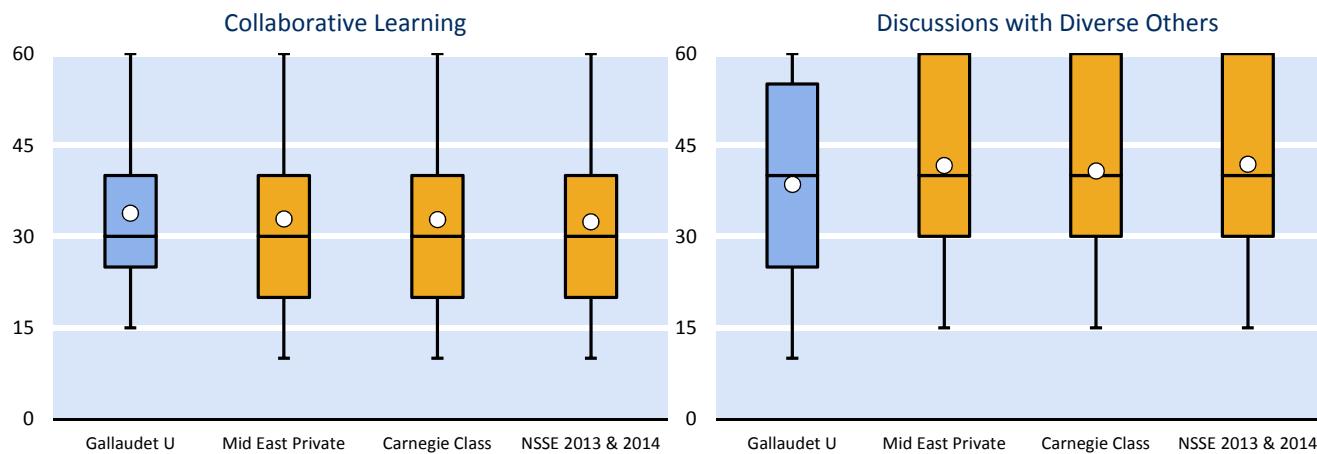

Collaborating with others in mastering difficult material and developing interpersonal and social competence prepare students to deal with complex, unscripted problems they will encounter during and after college. Two Engagement Indicators make up this theme: *Collaborative Learning* and *Discussions with Diverse Others*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Gallaudet U Mean	Your seniors compared with				NSSE 2013 & 2014 Effect size
		Mid East Private Mean	Effect size	Carnegie Class Mean	Effect size	
Collaborative Learning	33.8	32.9	.07	32.8	.07	32.4 .10
Discussions with Diverse Others	38.6	41.7 *	-.20	40.8	-.14	41.8 * -.20

Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the Overview page are based on effect size and p before rounding.

#### Score Distributions

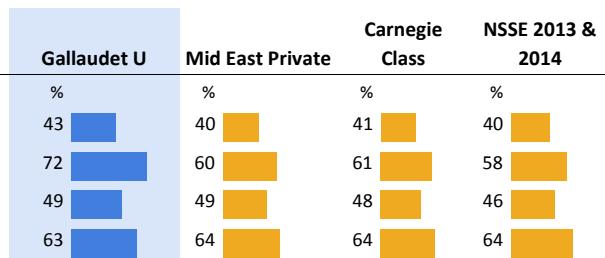

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score. Refer to Detailed Statistics for your institution's sample sizes.

#### Summary of Indicator Items

##### Collaborative Learning

Percentage of students who responded that they "Very often" or "Often"...

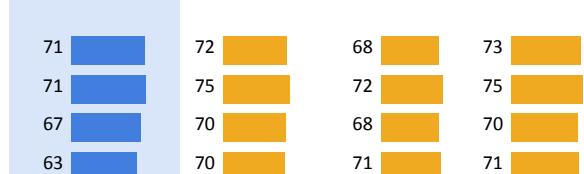

- 1e. Asked another student to help you understand course material
- 1f. Explained course material to one or more students
- 1g. Prepared for exams by discussing or working through course material with other students
- 1h. Worked with other students on course projects or assignments

##### Discussions with Diverse Others

Percentage of students who responded that they "Very often" or "Often" had discussions with...

- 8a. People from a race or ethnicity other than your own
- 8b. People from an economic background other than your own

- 8d. People with political views other than your own

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Experiences with Faculty: First-year students

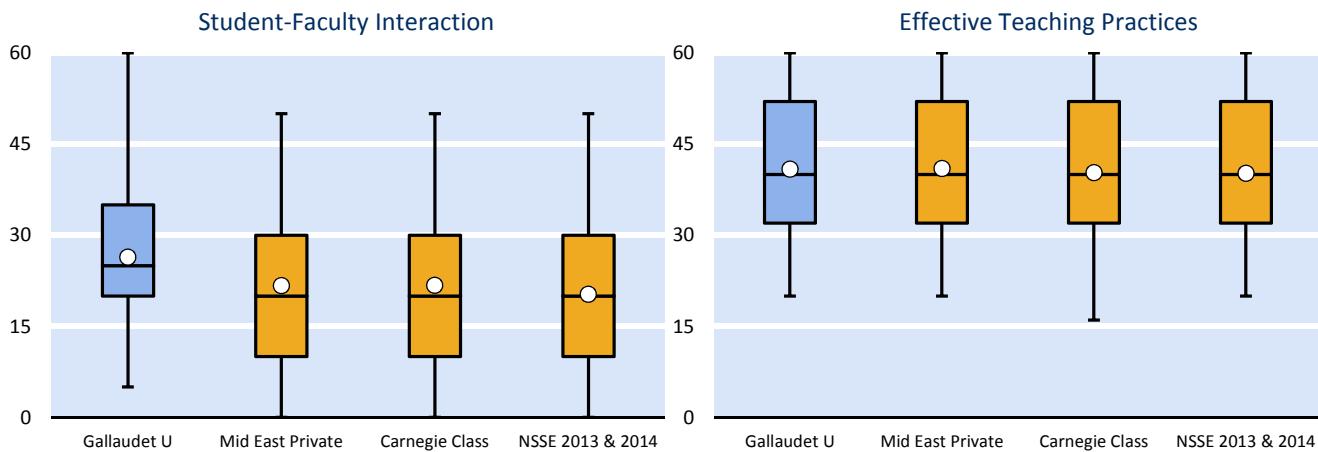

Students learn firsthand how experts think about and solve problems by interacting with faculty members inside and outside of instructional settings. As a result, faculty become role models, mentors, and guides for lifelong learning. In addition, effective teaching requires that faculty deliver course material and provide feedback in student-centered ways. Two Engagement Indicators investigate this theme: *Student-Faculty Interaction* and *Effective Teaching Practices*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Mean	Your first-year students compared with					
		Mid East Private		Carnegie Class		NSSE 2013 & 2014	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Student-Faculty Interaction	26.4	21.7 **	.32	21.7 **	.32	20.3 ***	.42
Effective Teaching Practices	40.8	41.0	-.01	40.3	.04	40.2	.05

Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the Overview page are based on effect size and p before rounding.

#### Score Distributions

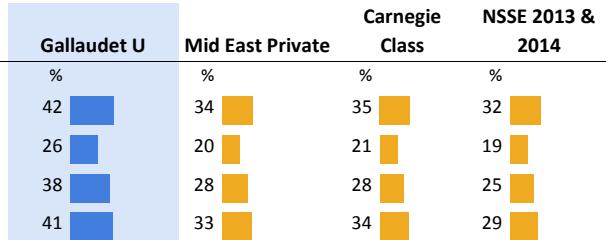

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score. Refer to Detailed Statistics for your institution's sample sizes.

#### Summary of Indicator Items

##### Student-Faculty Interaction

Percentage of students who responded that they "Very often" or "Often"...

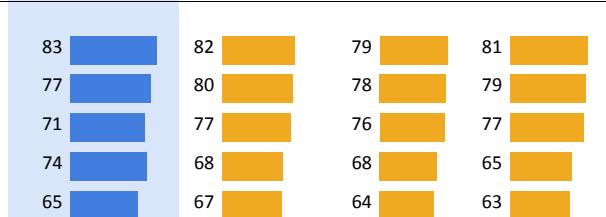

- 3a. Talked about career plans with a faculty member
- 3b. Worked w/faculty on activities other than coursework (committees, student groups, etc.)
- 3c. Discussed course topics, ideas, or concepts with a faculty member outside of class
- 3d. Discussed your academic performance with a faculty member

##### Effective Teaching Practices

Percentage responding "Very much" or "Quite a bit" about how much instructors have...

- 5a. Clearly explained course goals and requirements
- 5b. Taught course sessions in an organized way
- 5c. Used examples or illustrations to explain difficult points
- 5d. Provided feedback on a draft or work in progress
- 5e. Provided prompt and detailed feedback on tests or completed assignments

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Experiences with Faculty: Seniors

### Campus Environment: First-year students

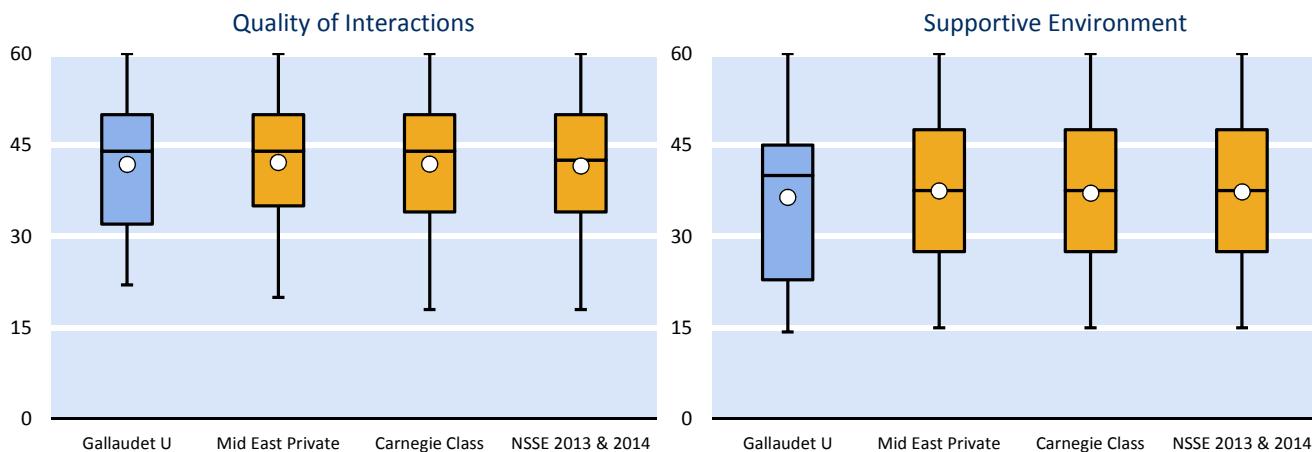

Students benefit and are more satisfied in supportive settings that cultivate positive relationships among students, faculty, and staff. Two Engagement Indicators investigate this theme: *Quality of Interactions* and *Supportive Environment*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Gallaudet U Mean	Your first-year students compared with					
		Mid East Private		Carnegie Class		NSSE 2013 & 2014	
		Effect size	Mean	Effect size	Mean	Effect size	Mean
Quality of Interactions	41.8	.42.1	-.02	41.8	.00	41.5	.02
Supportive Environment	36.4	.37.4	-.07	37.1	-.05	37.3	-.06

Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the Overview page are based on effect size and p before rounding.

#### Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score. Refer to Detailed Statistics for your institution's sample sizes.

#### Summary of Indicator Items

##### Quality of Interactions

Percentage rating a 6 or 7 on a scale from 1="Poor" to 7="Excellent" their interactions with...

	Gallaudet U %	Mid East Private %	Carnegie Class %	NSSE 2013 & 2014 %
13a. Students	60	60	58	59
13b. Academic advisors	48	50	50	48
13c. Faculty	48	54	52	50
13d. Student services staff (career services, student activities, housing, etc.)	41	44	45	43
13e. Other administrative staff and offices (registrar, financial aid, etc.)	42	42	43	41

##### Supportive Environment

Percentage responding "Very much" or "Quite a bit" about how much the institution emphasized...

	Gallaudet U %	Mid East Private %	Carnegie Class %	NSSE 2013 & 2014 %
14b. Providing support to help students succeed academically	70	79	78	78
14c. Using learning support services (tutoring services, writing center, etc.)	63	78	78	78
14d. Encouraging contact among students from diff. backgrounds (soc., racial/eth., relig., etc.)	63	60	58	59
14e. Providing opportunities to be involved socially	69	73	73	73
14f. Providing support for your overall well-being (recreation, health care, counseling, etc.)	62	70	70	72
14g. Helping you manage your non-academic responsibilities (work, family, etc.)	61	44	43	44
14h. Attending campus activities and events (performing arts, athletic events, etc.)	65	67	68	68
14i. Attending events that address important social, economic, or political issues	55	57	53	53

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Campus Environment: Seniors

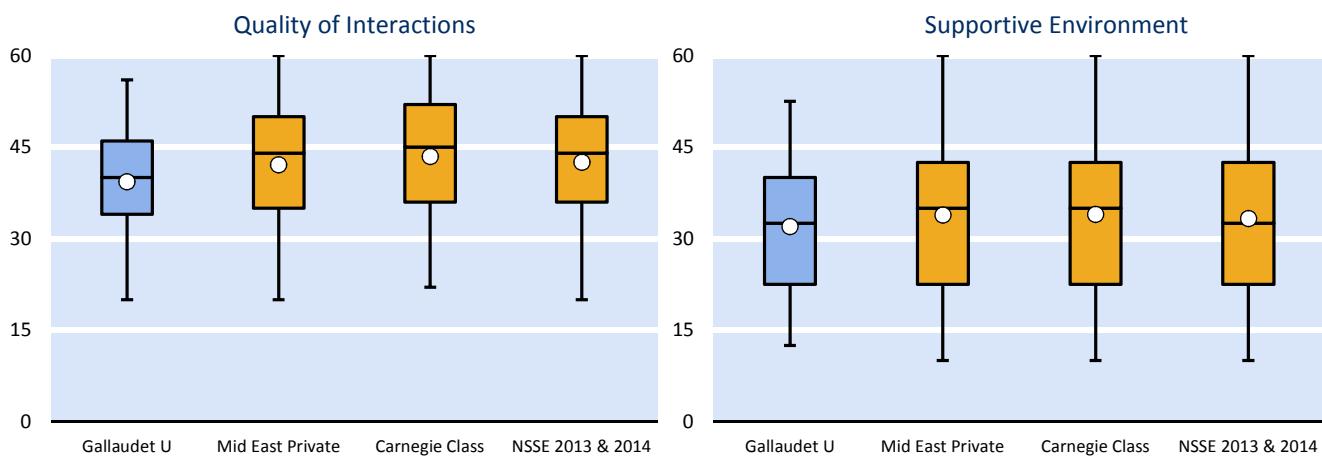

Students benefit and are more satisfied in supportive settings that cultivate positive relationships among students, faculty, and staff. Two Engagement Indicators investigate this theme: *Quality of Interactions* and *Supportive Environment*. Below are three views of your results alongside those of your comparison groups.

##### Quality of Interactions

Percentage rating a 6 or 7 on a scale from 1="Poor" to 7="Excellent" their interactions with...

	Gallaudet U %	Mid East Private %	Carnegie Class %	NSSE 2013 & 2014 %
13a. Students	54	63	63	64
13b. Academic advisors	41	53	59	52
13c. Faculty	49	61	63	60
13d. Student services staff (career services, student activities, housing, etc.)	28	39	43	42
13e. Other administrative staff and offices (registrar, financial aid, etc.)	32	38	45	42

##### Supportive Environment

Percentage responding "Very much" or "Quite a bit" about how much the institution emphasized...

14b. Providing support to help students succeed academically	67	73	74	72
14c. Using learning support services (tutoring services, writing center, etc.)	49	69	69	67
14d. Encouraging contact among students from diff. backgrounds (soc., racial/eth., relig., etc.)	64	53	54	53
14e. Providing opportunities to be involved socially	68	67	68	66
14f. Providing support for your overall well-being (recreation, health care, counseling, etc.)	54	62	62	63
14g. Helping you manage your non-academic responsibilities (work, family, etc.)	40	33	33	32
14h. Attending campus activities and events (performing arts, athletic events, etc.)	54	60	60	57
14i. Attending events that address important social, economic, or political issues	54	51	49	46

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

This page intentionally left blank.

### Comparisons with Top 50% and Top 10% Institutions

The results below compare the engagement of your first-year and senior students with those attending two groups of institutions identified by NSSE<sup>a</sup> for their high average levels of student engagement:

- (a) institutions with average scores placing them in the top 50% of all 2013 and 2014 NSSE institutions, and
- (b) institutions with average scores placing them in the top 10% of all 2013 and 2014 NSSE institutions.

While the average scores for most institutions are below the mean for the top 50% or top 10%, your institution may show areas of distinction where your average student was as engaged as (or even more engaged than) the typical student at high-performing institutions. A check mark (✓) signifies those comparisons where your average score was at least comparable<sup>b</sup> to that of the high-performing group. However, the absence of a significant difference between your score and that of the high-performing group does not mean that your institution was a member of that group.

It should be noted that most of the variability in student engagement is within, not between, institutions. Even "high-performing" institutions have students with engagement levels below the average for all institutions.

Note: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by the pooled standard deviation.

a. Precision-weighted means (produced by Hierarchical Linear Modeling) were used to determine the top 50% and top 10% institutions for each Engagement Indicator from all NSSE 2013 and 2014 institutions, separately for first-year and senior students. Using this method, Engagement Indicator scores of institutions with relatively large standard errors were adjusted toward the mean of all students, while those with smaller standard errors received smaller corrections. As a result, schools with less stable data—even those with high average scores—may not be among the top scorers. NSSE does not publish the names of the top 50% and top 10% institutions because of our commitment not to release institutional results and our policy against ranking institutions.

b. Check marks are assigned to comparisons that are either significant and positive, or non-significant with an effect size > -.10.

a. Results weighted by institution-reported sex and enrollment status (and institutional size for comparison groups).

b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.

c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the 95% CI is the range of values that is 95% likely to contain the true population mean, equal to the sample mean +/- 1.96 \* SEM.

d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.

e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.

f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.

g. Effect size is the mean difference divided by the pooled standard deviation.

a. Results weighted by institution-reported sex and enrollment status (and institutional size for comparison groups).

b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.

c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the 95% CI is the range of values that is 95% likely to contain the true population mean, equal to the sample mean +/- 1.96 \* SEM.

d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.

e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.

f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.

g. Effect size is the mean difference divided by the pooled standard deviation.
