OPERATION INSTRUCTIONS

LENZACOMFORT+
WALL HUNG PAN
CODE: LZ310

LENZACOMFORT+ WALL HUNG PAN CODE: LZ310

EXPLANATION OF SYMBOLS

Refers to a potentially dangerous situation that may cause serious injury or death .

Refers to a potentially dangerous situation that may cause injury or damage to property.

Do not touch or interfere.

Follow the instructions accordingly.

Gallaria shall not be liable for any loss arising from the failure to comply with the following:

- 1. This toilet is considered to be a Class I (1) electric appliance, and therefore must be 'grounded' by a qualified and licensed electrician to prevent damage, injury or death.
- 2. Please ensure the electrical components are not installed where it can easily be splashed with water.
- 3. Please ensure the toilet is installed in a bathroom with adequate ventilation, e.g. window ventilation or a bathroom exhaust fan(s).
- 4. If the supply cord is damaged, please ensure it is replaced by a qualified service agent or similarly qualified persons in order to prevent damage, injury or death.

SAFETY ADVICE

To avoid the risk of electric shock, shortcircuiting, fire, water leakage and damage to the product:

DO NOT Insert or remove power plug with wet hands.

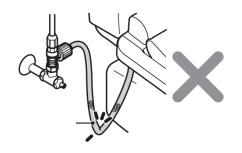

DO NOT damage the power cord and plug. Inspect both before installation to ensure all is intact.

DO NOT splash water, detergents or urine on the product and the power plug.

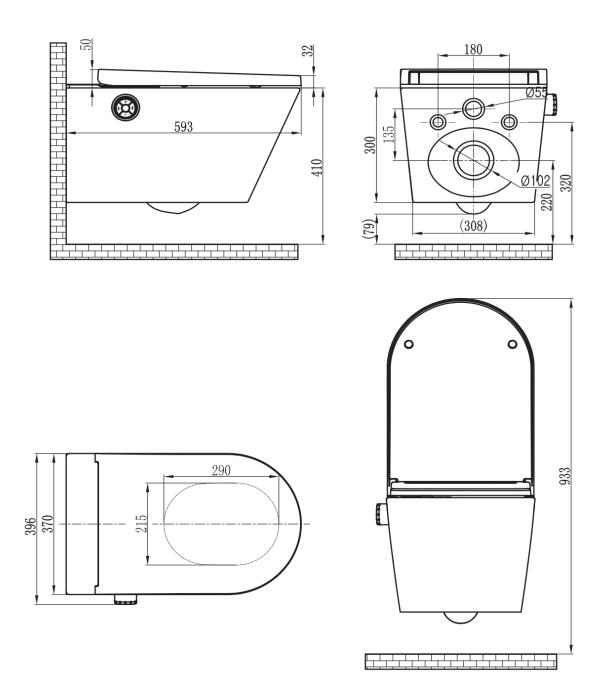

DO NOT bend or distort the inlet hose.

Damata Carta 1	Maximum RF Output Power	-10dBm
Remote Control	Type of batteries	1. 5V LRO3 AAA
	Number of batteries	Two pieces
	Other Safety Device	Residual Current Devices
	Net Weight	35Kg
	Dimension	593*370*460 mm

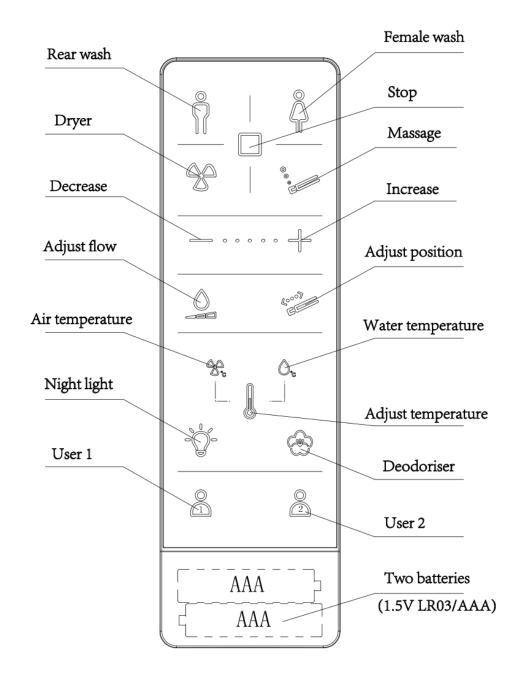

TECHNICAL DRAWING

OVERVIEW

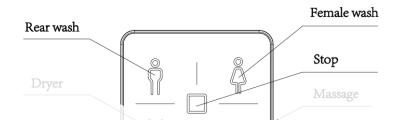

REMOTE CONTROL

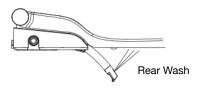

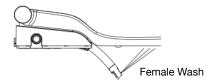

Note:

- The remote control requires 2 x AAA batteries (type 1.5V LR3/AAA) which are not included.
- Software version: V1.0. Software updates will not be provided.

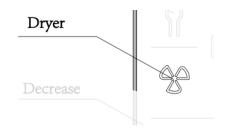

WASH MODES

Press the 'Wash' button on the remote control or on the control knob. The bidet seat will commence washing.

Washing can be stopped by simply pressing the 'Stop' button on either the remote control on control knob.

Alternatively, the wash will automatically stop after 3 minutes.

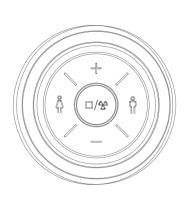

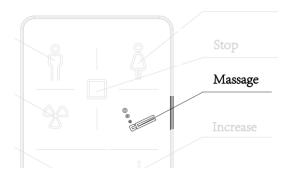

DRY FUNCTION

Press the "Dry" button on the remote control or centre button on the control knob to commence the drying process.

Drying can be stopped by pressing the 'Stop' button.

The drying function will automatically stop after 3 minutes.

Pulsating: indicated by two lights

Oscillating & Pulsating: indicated by

MASSAGE FUNCTION

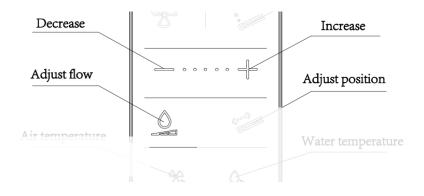

Repeatedly press the 'Massage' button on the remote control your desired spray mode is chosen.

OR

Press the 'rear wash' or 'female wash' button on the control knob to activate oscillation. Press either button again to stop oscillation.

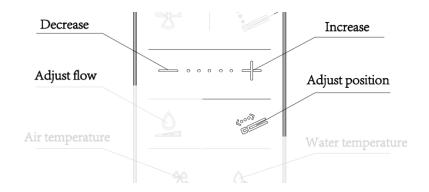

During the washing process, press the 'Adjust flow' button on the remote control to either decrease or increase the wash flow rate.

WASH FLOW RATE

Alternatively, the wash flow rate can be controlled via the control knob.

The flow rate will increase in the clockwise direction and decrease in the anticlockwise direction.

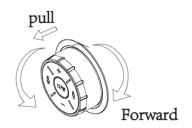

NOZZLE POSITION

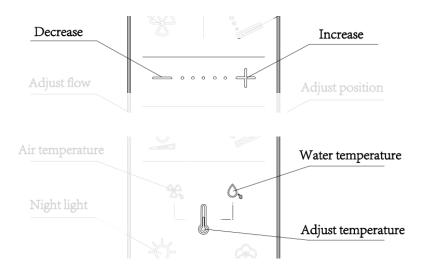

During the washing process, press the 'Adjust position' button on the remote control. Press the '+' or '-' button to adjust the nozzle position forward or backward.

Alternatively, the nozzle position can be adjusted using the control knob.

The nozzle will move forward when the knob is turned clockwise, and move backward when turned in anticlockwise direction.

Backward

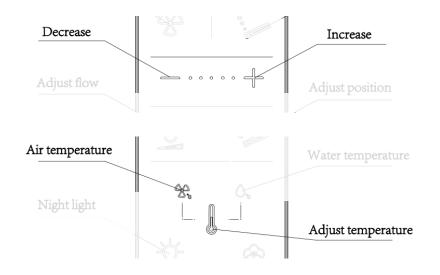

WATER TEMPERATURE

During the washing process, repeatedly press the 'Adjust temperature' button on the remote control until 'Water temperature' icon is highlighted, then press 'Increase' or 'Decrease' button to adjust the water temperature.

Alternatively, press the "+"or "-" button on the control knob to increase or decrease the temperature level.

DRYING TEMPERATURE

During the drying process, repeatedly press the 'Adjust temperature' button on the remote control until 'Air temperature' icon is highlighted, then press 'Increase' or 'Decrease' button to adjust the air temperature.

Alternatively, press the "+"or "-" button on the control knob to increase or decrease the air temperature level.

Repeatedly press the 'Deodorisation' button on the remote control to switch on or turn off the deodorisation function.

Dedorisation off: indicated by 1 light

Smart mode: indicated by 2 lights

.

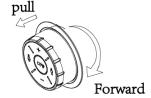

DEODORISER

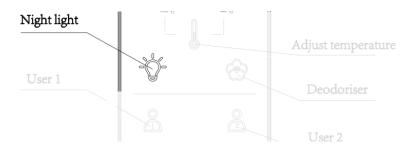

Note: Smart deodorisation mode is set by default.

Deodorisation will automatically activate once the user is seated and will automatically shut off, 1 minute after the user leaves the unit.

Repeatedly press the 'Deodorisation' button on the remote control to switch on or turn off the deodorisation function.

Alternatively, pull out the control knob and turn clockwise to deactivate deodorisation. Turn clockwise again to activate.

Note: Smart night light mode is set by default. (Light will switch on in dark bathroom environments)

Night light off: indicated by 1 light $-\cdot$ +
Night light on: indicated by 2 lights $-\cdot\cdot$ +

Smart mode: indicated by 3 lights — · · · +

NIGHT LIGHT

Repeatly press the 'Night light' button on the remote control to select the desired mode.

Alternatively, lift open the cover and seat (without sitting down). Pull the knob and rotate it in an anticlockwise direction to turn the night light off. Rotate it anticlockwise again to turn night light on.

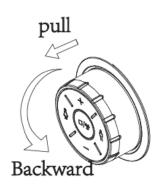

SOUND/BEEP SETTINGS

Open the cover and be seated. Pull out the control knob and turn in an anticlockwise direction:

- A long beep indicates the beeps are turned off
- A short bell indicates the beeps are turned on

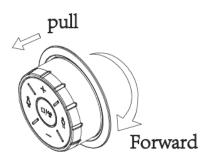

Note: Sound is turned on by default.

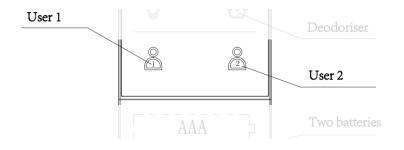

AMBIENT LIGHTING

Open the cover and be seated. Pull out the control knob and turn in a clockwise direction:

- The ambient light will be turned off
- A further turn in a clockwise direction will activate the Ambient Lighting mode

USER SETTINGS

To Save

Once all desired settings have been set, press and hold down either the 'User 1' or 'User 2' buttons for more than 3 seconds to save the current setting.

To Retrieve

Simply press the 'User 1' or 'User 2' button prior to washing and drying to engage the respective user setting.

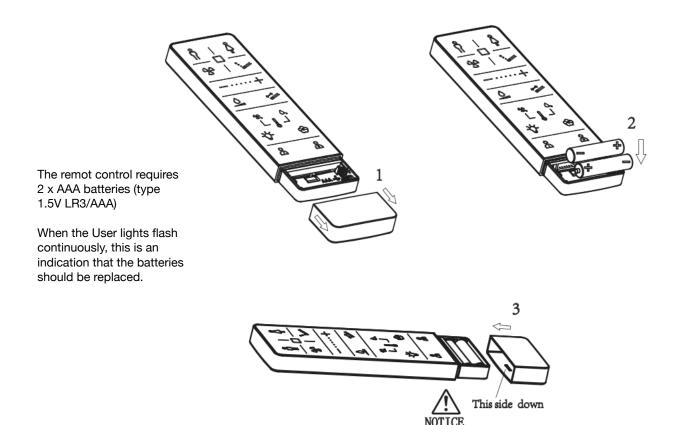

STANDBY MODE

To engage standby mode, press and hold the middle button of the control knob for more than 6 seconds.

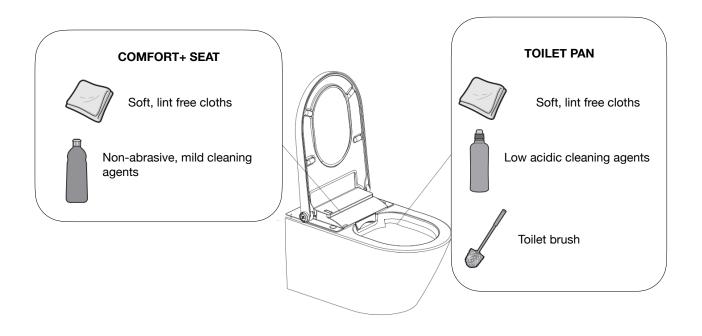

Press and hold the middle button again for more than 6 seconds to restart.

BATTERY REPLACEMENT OF REMOTE CONTROL

GENERAL CARE & CLEANING ADVICE

SUGGESTED INTERVAL	SUGGESTED CLEANING ACTIVITY
Daily	Wipe down water droplets with a soft lint free cloth to avoid limescale stains.
Weekly	Throughly wipe down and clean all surfaces. Clean the spray nozzle if required (see Nozzle Cleaning).
Monthly	Clean the toilet pan with a low acidic cleaning agent.
Every 6 months	Replace the filter if required (see Replacing Filter').

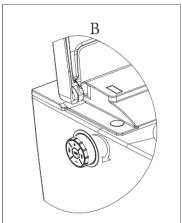

AUTOMATIC SELF CLEANING

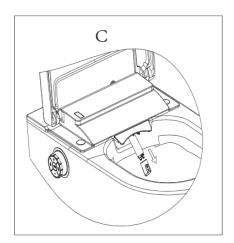

If the unit is not used for more than 72 hours, the self-cleaning will operate for approximately 3 minutes when the user operates the wash function. All buttons on the remote control become invalid during the self-cleaning function.

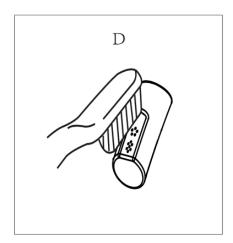

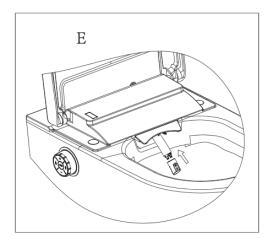

NOZZLE CLEANING

The nozzle will automatically clean itself before washing and after washing.

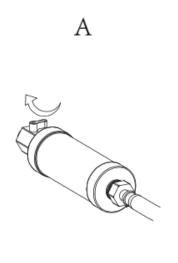

Should you wish to clean the nozzle manually, please do as follows:

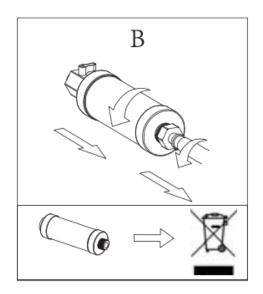

- A. Open the cover and seat
- B. Rotate the knob in a clockwise direction
- C. The nozzle will extend itself commence a water cleansing process
- D. If required, manually use a soft bristled brush to clean the nozzle
- E. Press the 'Stop' button once finished (nozzle will automatically return after 5 minutes if left unattended

FILTER REPLACEMENT

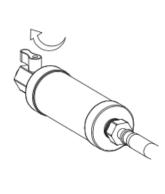

The filter has a service life of approximately 6 months. Naturally, this is dependent on the harshness of water the filter is subjected to.

If the filter is not replaced at the suggested interval of 6 months, then we recommend that it be replaced when the wash flow is noticeably reduced. A reduced wash flow would be an indication of a blocked filter.

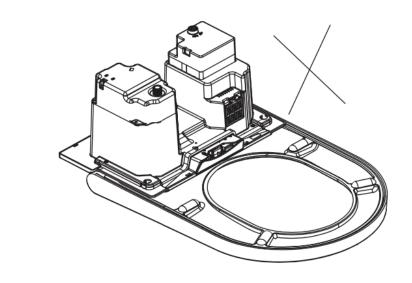

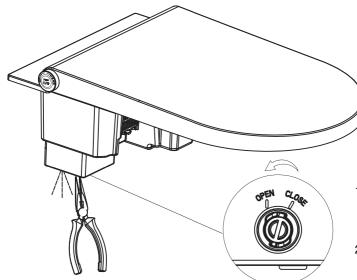

D

DRAINING THE WATER TANK

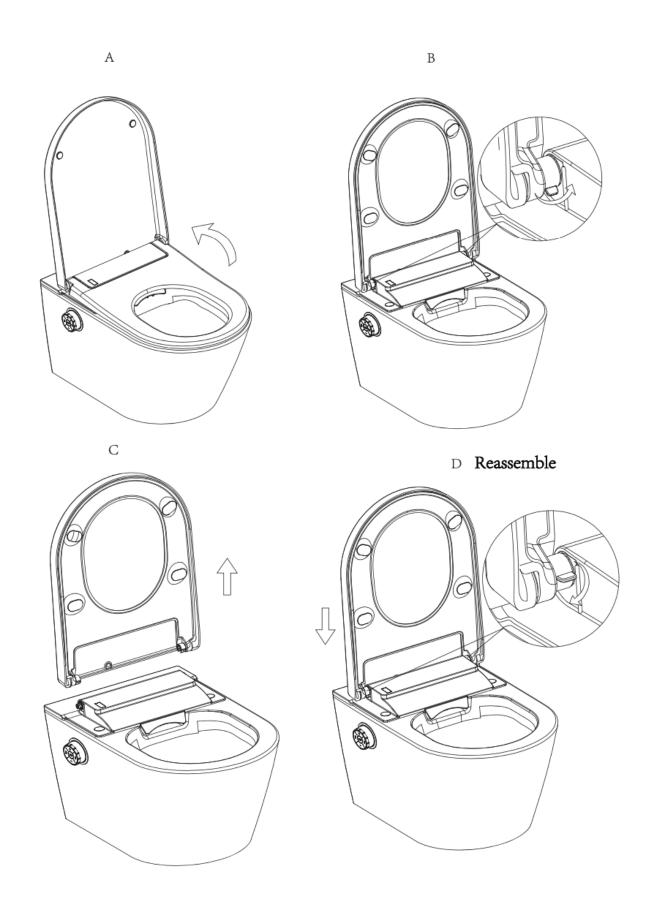

- 1. The water and power must be cut before you disassemble the Comfort+ Seat
- 2. Do not invert or tilt the Comfort+ Seat before you finish draining the water tank

- 1. Turn the plug to the "OPEN" position and pullout. The water will start to drain.
- 2. After the tank has drained, insert the plug and turn to the "CLOSE" position.

RELEASING AND REASSEMBLING THE COVER AND SEAT

TROUBLESHOOTING

The wash function is not working 1. The power supply may not be opened 2. The water supply may not be opened 3. The filter may be blocked 4. Maybe not in the seating state 5. Maybe the cover is closed 6. Maybe it is not used for more than 72 hours 7. The washing cycle is 3mins. The nozzle will stop spraying after 3mins, and then go back. 7. There may be some problems of water supply 7. There may be seated sensor detects the user left the seat 7. The water flow rate 8. The water flow rate 8. The water supply pressure may be blocked 8. The water temperature 8. The water temperature 8. The water temperature 9. The water temperature 1. The water flow grades 9. The water supply pressure may be set at low grades 1. Do not dispose electrical appliances in general municipal waste. Use the appropriate separate collection facility provided by your local council.

Contact your local government for information regarding the collection and/or disposal options available.

Incorrect disposal of electrical appliances may cause hazardous substances to leak into groundwater and food chain supplies, damaging the health and well-being of natural environments.

When replacing old appliances with new ones, the retailer is legally obligated to take back your old appliance for disposals at least free of charge.
