Fastest Emerging Sport in NCAA History

- Sand volleyball is the fastest growing NCAA sport ever.
- The sport had just 16 teams in its inaugural season in 2012. A total number of 41 Division I schools have decided to add the sport since then.
- Now that the number of schools is over 40, the NCAA will sponsor an NCAA Championships when those programs have sponsored the sport for two years.

There's a Difference?

- Although sand volleyball and indoor volleyball have plenty of similarities, they also have several differences, including a court size of 16m x 8m compared to 18m x 9m.
- Each team event is called a dual and consists of five pairs for each team.
- A winner is determined when a team wins three of the five pairs matches. Each pairs match is a best-of-three format. The first two sets are rally scoring to 21 points with the third set to 15 if necessary.
- There is no open-hand tipping in sand volleyball.
- The block touch does count as the first of three allowable touches in sand volleyball.
- With the weather elements, pairs swap courts every seven points in a 21-point set and every five points in a 15-point set.
- Sand coaches are only allowed to give instructions to players during timeouts and between sets.
