He needs to continue to work on his rebounding, defensive abilities and strength. As the only returning starter with the most SEC experience, we have pushed him to be a team leader. Last year he battled hard against heavy odds and did well for a first year player, earning Freshman All-SEC honors.

His ability to play in a decision-making role off the dribble is crucial.

Tim Duncan

What was your favorite cartoon/show as a kid?

ODOM SAYS

His body is more developed, his weight is down and his ball handling is more reliable and with those improvements his confidence level is higher. If he can stabilize his ability to rebound and become more effective defensively that will be a big help for us. We need his size in the post. He needs to learn the value of competing this year. When he got beat in the past, it was no big deal and I want him to value each match-up and practice by putting more emphasis on winning. His success on the SCORE trip helped boost his confidence.

ODOM SAYS

Everyone, including Dwayne Day, has been waiting for his game to evolve the last three years and while he has shown spurts of being a talented player, he has never been good enough or consistent enough to earn a spot in the starting rotation. We have asked him to be more consistent, a real team leader, a better defender and playmaker. We want him to be more than just a long-range shooter.

ODOM SAYS

Devan is eager to get the year started. Last year was a very valuable year from him because his passion for the game grew and he played against All-SEC guard Tre' Kelley everyday in practice. He is very quick and gets into the lane easily. Devan is an excellent passer and a better outside shooter than people would know. What surprised me most about him: he goes full court naturally, is tireless, is very strong for his size and can shut down his man on defense. I trust him with the ball because he is a reliable decision-maker.

ODOM SAYS

Zam appears very comfortable and compatible with the environment here and he is at home with his teammates. He will play the off-guard spot, but there will be times when he will have to move over the point and give Devan a rest. He is strong, reasonably quick and shoots the ball well. I continue to be impressed with his ability to pass. He can shoot the open shot from the perimeter and drive to the basket with the ball as well. He needs to continue to work on his speed, quickness, keeping his weight down and to ensure he remains in top shape.

Chad is more ready to play this year after coming in December. He has shown the ability to shoot the open 15-18 foot shot. I want him to develop his ability to drive the basketball and work on his inside game. I was disappointed in his defensive abilities last year, but his body is stronger and in better shape so he should be able to do a better job on defense this year. He is a candidate to be a frontcourt starter.

I know he has the ability to be an excellent player at this level. I think he had a good freshman year, not great, but good. I was very pleased with his non-conference play and it seemed when we got into SEC play his performance diminished somewhat. I know he will be a better defensive player. I hope he will put the first year of experience to good use and have a much better sophomore season. He needs to work on consistency and his decision-making skills.

We will bring him along slowly. He is athletically active. Even though he will play guard for us, he played inside quite a bit in high school so he will make the transition from frontcourt to back court. I would like him spend a lot of time developing his body and helping him learn the game, not just the plays of the game.

A great athlete with good skills - he is strong, relentless, better inside than he is outside, but shows surprising ability to take open jump shots from the perimeter. His main value will be inside 15 feet. He is quick on his feet, can get the ball to the basket and grab it off the glass. He is as determined as a rebounder and shot blocker as he is an offensive scorer. He is one of our stronger players and enjoys physical contact, which is something we need.

He has an intuitive game - he has the ability to be in the right place at the right time and does the right thing once he gets there. He handles the ball well, is a good shooter, and is an excellent shot blocker for a young 6ft. 9 player. He can dribble the ball out on the perimeter some and he should be a good defender. He has to pick up the shot blocking we lost with Brandon Wallace graduating. He has to rebound the ball and we would like him to work on ball handling and make plays out on the open court. He will continue to develop as we go along. He and Carlos Powell are cousins, but entirely different players.

SAYS

Austin is a player that could surprise everybody. He comes in with the least amount of hype. He is a good rebounder, he runs the floor, can catch and deliver the ball off the catch to the basket. He catches and lays it up really well and that's hard for big guys to do. He has a decent 15-18 jump shot. He is a good defender, he is better at facing the basket than with his back turned so he needs to work on his post-up game.
