# 34 Renaldo Balkman

F, 6-8, 210, So., Tampa, Fla.  
2004 SEC All-Freshman Team

"His strengths are speed, quickness, athleticism, spontaneity, ability to run the court, a good nose for the game and a good sense of the game. These are all attributes that are God-given and very difficult to teach. He has improved his shooting and that's important. The fact he was out for eight weeks with surgery on his left thumb made things more difficult but he's worked hard to catch up. I like Renaldo's dedication to improving and his commitment to our team's goals."

Had an excellent freshman season as he was named to the All-SEC Freshman team ... Had left thumb surgery in the late spring which curtailed some of his weight training and skill development, but he is 100 percent now ... Expect him to improve the consistency and range of his shot, his ball handling and his assist to turnover ratio ... Had an unusually high number of blocked shots for a freshman player on the perimeter ... Coaches would like him to be a better one-on-one defender in addition to a shot blocker ... Has a wing-span of 84 1/2 inches ... Enjoys working with Team Gamecocks, USC's community service branch.

# 54 John Chappell

C, 6-10, 247, Sr., New Berlin, Wis.

2004 All-District III Academic All-American

“John has developed a fair amount each and every year he’s been here. He has now put himself in a position to have his very best year because he’s stronger, quicker and more athletic. His skills have improved, but I think the biggest change in him is that John is more confident in his abilities and his ability to help others. He should be one of our best rebounders, one of our best post defenders, and an effective inside scorer as long as he doesn’t try to manufacture points.”

THE GAMECOCKS

“Josh had an excellent first year here at Carolina. The thing that surprised me most about him was that he played basically unafraid, and I like that. He shot the ball incredibly well in streaks last year, but this year he has to work on shooting the ball consistently, improve his ability to handle the basketball in traffic and his assist to turnover ratio. I don’t know that he’ll ever be a creative passer, but he should be a very effective passer. He must work to be more committed defensively.”

# 13 Paulius Joneliunas

C, 6-11, 240, So., Vilnius, Lithuania

“He did not play much last year, but he worked hard in the off-season and because of that he should be a better basketball player. His physical conditioning has been a point of emphasis in the off-season. He gained a lot of experience this past summer playing on the Lithuanian 20 and Under team which played in the European Championships. Hopefully his summer of hard work will also help his confidence. He must continue to improve if he’s going to work his way up through the rank and file of the other post players.”

THE GAMECOCKS

“Tré had a really fine freshman year. He primarily played a backup role but the further we went into the season the more he was in there at crunch time. He came a long way as a player from the early part of his freshman year to tournament time. We look for him to improve his shooting percentage, as he has been working on his shot in the off-season. We also look for him to be more of a leader. I’m very pleased with what he accomplished thus far so we’re going to ask more of him and he’ll be given the first opportunity to take over the reigns of leadership at the point guard position.”

# 21 Tarence Kinsey

G, 6-7, 184, Jr., Tampa, Fla. (Jefferson High)

2003 Guardians Classic MVP

“Tarence had a much better year last season than he did his first year; still I think he can be better. I was very happy with him through the first 14 or 15 games, but then I thought he began to tire. As we got into league play the games got harder and his lack of strength and endurance came into play. This summer we asked him to get bigger and stronger, and be more durable so he can last 30 plus games. I think he's done that. He's an aggressive offensive player, who should get better defensively. Tarence looks to score on each trip and he should be a real factor for us at one of the wing positions. He's got the ability to be as good as he wants to be if he'll continue to be serious about his game and develop. He's one player who can take the ball to the basket and shoot the ball from a distance. He must exhibit the same sense of purpose on the defensive side.”
