"Jon's role is pretty much identified He's one who's going to continue to be very important to us in practice and on our scout team. He will give us a big lift as we prepare for each and every opponent. He'll play an important role from that standpoint, but I still wouldn't want to dismiss the fact that he's a senior now and seniors sometimes have a way of surpassing the things that others expect of them. Jon is someone we'll look to not only in practice for help but also for leadership." - USC Head Coach Dave Odom

# **15 Carlos Powell**

F, 6-7, 225, Sr., Florence, S.C. (Wilson High) 2004 All-SEC

"Carlos is our most experienced player coming back. The key to success for Carlos is completely turning himself over to the team and letting the team help him be better or be the best he can be as opposed to him trying to make the team be the best he can be. It's kind of a role reversal. Offensively he'll always be effective because he'll score points for us and do the

things that we need from him. Carlos has to be a more consistent shooter for him to be the best player he can be. He's got to shoot the ball a lot in practice – he's got to make shots, make shots and make shots! I think his biggest problem is the shot selection. If he just took open shots I think he'd shoot a better percentage. His defense improved measurably last year. We look for him to provide better leadership."

"Brandon had a really good freshman year. I look for him to be one of our most improved players coming back. I think he can be as improved as anybody if he can be more aggressive. Aggressiveness comes with confidence and to that end this summer we had him work extremely hard to get stronger, bigger, better, faster, quicker. I think he has that ability. His biggest fault is that I think he's too passive at times and stands back and lets the personality of others override his."

"He's a newcomer. I've always felt since we signed him that he was versatile enough to play three positions. Where he'll end up I'm not sure but I do think he's somebody that we can count on to be very effective because of his versatility. He's a nice kid; he's easy to be around. Like a lot of freshmen he's undersized right now but he's getting bigger and stronger. The biggest thing for him right now is to find his comfort zone, identify his role on our team and play with confidence that matches his abilities."
