Date of testing : October 27, 2021

Weight: 2.546 ct

Measurements: 8.83 x 6.93 x 4.55 mm

According to documents of “Fura Gems”, the rough sapphire described above, was mined in its deposit in Mozambique. It was auctioned in Bangkok in September 2021.

The consistency of the analytical data collected during the examination of the rough sapphire and the faceted stone, as well as the comparison of their inclusion scenarios provided sufficient evidence to conclude that this stone was cut from that rough piece.
