WHAT IS THE

Middleton Parks and Rec District?

The Greater Middleton Parks and Recreation District was created to serve the current and future needs of Middleton and the surrounding community by acquiring, developing, and preserving open space and park facilities, and to provide quality, safe and accessible recreational programs, clean facilities and parks that meet the diverse needs of individuals of all ages.

Who is GMPRD?

Local residents joined together to establish a "**Recreation District**" within the boundaries of the Middleton School District. In July 1996 Governor Batt appointed Commissioners for the Greater Middleton Parks and Recreation District.
