

Integrate the planning,
optimization and measurement
of your audiovisual campaigns

Companies struggle to deliver a consistent brand experience across all channels, which affects customer churn rate and budget efficiency.

Gauss TV is an all-in-one audiovisual (AV) platform. Streamline your AV strategy with integrated planning, optimization and measurement, maximizing the impact.

Planning

Gauss TV defines how you **allocate your investment based on your goals**. It distributes your investment to **ensure the incremental reach** of your campaign by selecting the channels where your audience is located.

Measurement

Gauss TV measures the real value of each channel. **It integrates the measurement of On and Off media**, showing the incremental reach offered by each one and rating the channels according to the results obtained.

Optimization

Gauss TV allows you to discover and test new channels and **continuously find the most effective and efficient channels** for your business' objectives.

Proven results

Retail	+12% Incremental reach	+33% Revenue
Energy	+9% Incremental reach	+22% Sales
Banking	+2.7% Incremental reach	91% Attention rate

Gauss TV increases the impact of branding campaigns by leveraging synergies across the entire Paid Media strategy to maximise business results.
