Review and revise of the current draft of the Building Act, regulatory framework and its implementation issues

TERMS OF REFERENCE

Consultant for drafting Maldives National Building Act

1. Background

The Construction industry of the Maldives has been undergoing rapid development over the past few years, and this has underscored the importance of having a regulatory framework to regulate its construction works and to ensure public safety.

The Government of Maldives recognized the importance of ensuring the safety of the built environment and mandated the Ministry of Housing Transport and Environment to produce the Maldives National Building Act. The Building Act will ideally empower a set of building regulations.

2. Objectives

- (1) The Building Act 2009 aims to improve control of, and encourage better practices in building design and construction, so that buildings are designed and built right at first time.
- (2) The objectives of this Act are-
 - (i) To facilitate the adoption and efficient application of-
 - (a) National regulations; (Notional Contractor Regulation (NCR), National Building Designer Regulation (NBDR), National Building Professional Accreditation Regulation (NBPAR), health and Safety regulation (HSR), Building Inspector Regulation (BIR)).
