Ministry of Housing Transport and Environment Republic of Maldives

Maldives Environmental Management Project

IDA Credit No.: 4427-MV

Ref No.: 138-EF/IUL/2009/68

Date: May 17, 2009

Invitation for Interested Consultants

Project Manager/Advisor

The Government of the Republic of Maldives has received credit from the International Development Association (IDA) towards the cost of the Maldives Environmental Management Project (MEMP), and intends to apply part of the proceeds under the contract for the services of a Project Manager/Advisor. The Government of Maldives requires the services of an individual consultant to provide the Project Management/ Advisory Services. The Project Manager/Advisor will be responsible for the following:

- ◆ Report and advise the Project Director on all aspects of Project implementation throughout the duration of the project;
- ◆ Ensure timely and coordinated implementation of all project components and PMU services.

The Ministry of Housing, Transport and Environment, now invites interested eligible individual consultants to submit their expressions of interest. Interested consultants must provide (a) a CV including information that demonstrates that they are qualified to perform the services (description of similar assignments, experience in similar conditions, availability of appropriate skills, etc.) (b) monthly fee for services (inclusive of professional fees personal incidental costs, local accommodation, travel from home country, insurances etc.

A consultant will be selected in accordance with the procedures set out in the World Bank's [Guidelines: Selection and Employment of Consultants by World Bank Borrowers](#), May 2004, revised October 2006.

Interested individuals may obtain an outline TOR from www.erc.gov.mv and further information at the address below.

The expressions of interest must be submitted to the address (by regular mail, emails or fax) and person specified below before October 08, 2009.

**MINISTRY OF HOUSING, TRANSPORT AND ENVIRONMENT
REPUBLIC OF MALDIVES**

**TERMS OF REFERENCE OF ENGINEER
WATER AND SEWERAGE DEPARTMENT**

1. Purpose:

The Government of the Republic of Maldives has received financing (loan assistance) from French Development Agency (AFD) and is working on a project entitled “Maldives tsunami infrastructure rehabilitation project” and intends to apply part of the proceeds towards procuring the Services of an Individual Consultant- Engineer to provide technical support to develop and implement projects related to improving access to safe Water and Sanitation.

2. Background:

Maldives is a small island nation with fragile environment and scarce water resources. Its population of over 300,000 is thinly dispersed over 198 islands out of total 1190 islands, the remaining being uninhabited. There are practically no surface water sources and the limited ground water is vulnerable to salinity ingress and contamination from indiscriminately discharged waste water. The wide and uneven distribution of population and vulnerable water resources pose many challenges to the provision of basic services such as access to water and sanitation. Rain water harvesting and desalination of sea water are practiced on large scale to augment water resources and meet with the increasing water demand water.

The Asian Tsunami of 2004 has caused severe damages to country’s water resources and the infrastructure deteriorating the aquifers on many islands and destroying the rainwater collection systems. The private rainwater tanks have either been washed away or damaged heavily by unprecedented catastrophe.

Under the tsunami recovery and reconstruction programme the Government of Maldives with the generous support of donors and loan assistance from international funding agencies, is endeavoring to rehabilitate the water and sewerage infrastructure in the islands affected by the tsunami, thereby improving the living conditions of the affected population.

3. Need for an engineering consultant :

The Ministry of Housing Transport and Environment (MHTE) in the Government of Maldives, is undertaking improving access to Safe Water and Sanitation in the Islands. However in view of its limited technical staff and lack of experienced hands to cope with such projects, the ministry is looking for a project engineer

of international repute to provide consultancy services.

4. Major duties and responsibilities:

The incumbent shall be a technical team leader assisting the ministry (MHTE) in providing technical inputs during the period of assignment as outlined below.

- a) Visit project sites and inspect the civil works of the water supply and sewerage projects and give site specific suggestions where necessary
- b) Assist in designing water supply and sewerage systems in the islands and preparation of bid, documents and technical reports.
- c) Assist MHTE in carrying out feasibility assessments and scoping support required for sustainable management of community water supply and sanitation services.
- d) Assist the staff during field surveys and site visits and provide guidance to the staff in carrying out the works effectively.
- e) Assist in the tendering process.
- f) Assist the ministry (MHTE) in developing and reviewing proposals, concept and designs pertaining to water and sewerage projects and provide necessary comments and suggestions.
- g) Organize orientation cum training workshops for the staff on all aspects of the project related work. Facilitate technical meetings related to projects on hand.
- h) Undertake capacity building programmes to enhance the skills and competencies of MHTE staff and empowering local communities to operate and maintain the systems in sustainable manner.
- i) Review the operation and maintenance manuals submitted by the contractors; and provide guidance where necessary in establishing operation and maintenance procedures for water supply and sewerage systems in consultation with MHTE and the island communities.
- j) Undertake other technical tasks as required by the MHTE from time to time

5. Qualifications:

The applicant should possess following educational background and experience

- ✓ A Bachelor or higher degree in civil or environmental engineering with water supply and sanitation as elective subjects.
- ✓ Minimum ten years field experience of designing and implementing water supply and sewerage projects
- ✓ Previous experience in working with International Agencies will be an advantage
- ✓ Working experience in municipal projects will be an advantage
- ✓ Experience of executing/ operating rain water
