Technical Specifications

These specifications describe the basic requirements for goods. Tenderers are requested to submit with their offers the requisite brochure for the product(s) they intend to supply which contains all the aspects of specification required by the tender.

All the dimensions, weights, size capacities and the like of the equipment to be supplied shall not be outside the tolerances given under below. Deviations from the basic requirements and outside the tolerance, if any and which is/are felt necessary, shall be explained in detail and in writing with the offer, with supporting data such as calculation sheets, the purchase reserves the right to reject the products, if such deviations shall be found critical to the use and operation of the products.

The tenderers are required to present information along with their offers as follows:

- i) Shortest possible delivery period.*
- ii) Information on proper representative and/or workshop for backup service/repair and maintenance including their names and addresses.*
- iii) 100% of the items and 100% of the Quantity should be quoted.*

Tolerances for the various specification requirements are $\pm 10\%$ for performance data
