

MINISTRY OF HEALTH
MALE'
REPUBLIC OF MALDIVES

TERMS OF REFERENCE FOR PROJECT MANAGEMENT UNIT STAFFS

PROJECT DESCRIPTION

1. The project will provide Maldives with needed financing to sustain and upgrade its national coronavirus disease (COVID-19) vaccination program, implemented through the government's Expanded Program of Immunization (EPI) using the project investment component (PIC) modality of the Asia Pacific Vaccine Access Facility (APVAX) of the Asian Development Bank (ADB). The PIC grant will support investments for the storage, distribution, delivery, and administration of COVID-19 vaccines, along with related investments in capacity building, which will help ensure the success of the government's COVID-19 vaccine booster program.
2. The project is aligned with five of the operational priorities of ADB's Strategy 2030: (i) addressing remaining poverty and reducing inequalities; (ii) accelerating progress in gender equality; (iii) tackling climate change, building climate and disaster resilience, and enhancing environmental sustainability; (iv) strengthening governance and institutional capacity; and (v) fostering regional cooperation and integration.¹ It is consistent with ADB's country partnership strategy, 2020–2024 for Maldives, which prioritizes the strengthening of Maldives' health system.²
3. **Impact and outcome.** The project aims to support Maldives in implementing its COVID-19 booster vaccination program by timely addressing key remaining gaps of the vaccination system identified by the COVID-19 vaccine post-introduction evaluation report and further enhancing its climate and disaster resilience. The project is aligned with the following impact: resilience and responsiveness of health systems to COVID-19 enhanced, and uninterrupted supply of quality COVID-19-related vaccines ensured.³ The project will have the following outcome: the deployment of COVID-19 vaccines and other vaccines under the Expanded Program on Immunization effectively managed. The design and monitoring framework is in Appendix 1. The beneficiary population of the project will include over 90% (0.5 million) of the entire population living across the country.
4. The project outputs are:

OUTPUT 1: Capacity of vaccine storage and transport system increased.

Output 2: Information management of the EPI strengthened for COVID-19 vaccination and routine immunization.

Output 3: Human resource capacity of the EPI enhanced.
