1. Background

Several aspects of the Maldives' recent development pattern highlight imbalances between labor demand and supply. Public sector jobs are predominantly in the civil service with the rapid expansion of cadres in the 1990s and 2000s. However, with the increasing standard of living over time, the labor market has become more challenging for Maldivians in general. Increasing educational attainment among the younger generation and expectations have coincided/collided with the rapid growth in lowskill service jobs associated with tourism and construction, leading to a mismatch in skills supply and demand. Despite the high levels of growth and labor market conditions in public investments, tourism, fisheries and non-tradable tourism related activities, important challenges remain for young Maldivians. These relate to (i) the need for greater inclusion and productive employment for youth, especially for those who cannot rely on public sector jobs (because of a sharp reduction of public sector employment) or who are from the most vulnerable segments of the population; and (ii) an increasing reliance on foreign labor in important sectors such as tourism and construction services and limited opportunities for women.

The Government of Maldives (GoM) is implementing the "Maldives: Enhancing Employability and Resilience of Youth (MEERY)" Project. The project is funded by the World Bank. The objective of the project is to improve the relevance of technical and vocational skills and foster entrepreneurship to promote youth employment in priority sectors. The project is being jointly administered by the Ministry of Higher Education (MoHE) and Ministry of Economic Development (MoED), with a Project Steering Committee that is co-chaired by the MoHE and the MoED.

The project comprises of three components and a Contingent Emergency Component. The three primary components are;

Component 1: Fostering skills development and entrepreneurship in priority sectors through four subcomponents:

- 1.1: Labor-market assessment and analysis for demand driven skills identification
- 1.2: Revision of Skills Development (TVET and Entrepreneurship) Curriculum
- 1.3: Face-to-Face Skills Delivery.
- 1.4: Support for Entrepreneurship Development.
