Civil Engineer/Projects Executive

Invest Maldives established under the Ministry of Economic Development, is the lead Government agency for the management of strategic economic infrastructure projects and the promotion of foreign investments. The Civil Engineer/Projects Executive will work in the Projects Directorate under Invest Maldives.

Key Responsibilities

The Civil Engineer/Projects Executive will be a key part of the Projects Directorate team responsible for undertaking the following:

1. Manage and coordinate strategic infrastructure projects and PPP projects undertaken by Invest Maldives.
2. Coordinate with all the relevant project stakeholders effectively throughout the project life cycle.
3. Steer the delivery of government targets relating to the preparation, coordination and management of strategic infrastructure and PPP projects.
4. Review project documentations submitted by consultants/contractors/investors.
5. Review and analyze structural designs and drawings submitted by relevant stakeholders.
6. Prepare project concept papers, information memoranda, project proposals, implementation/work plans, progress reports, project reports, tender documents, employer's requirements and other documentation related to projects.
7. Create and maintain comprehensive project documentation.
8. Ensure effective risk management to minimize project risks.
9. Advising on procurement strategy and project contracts.
10. Preparation of TORs for infrastructure projects undertaken by Invest Maldives. Define accurate and detailed scope, objectives, and deliverables for the projects.
11. Evaluating claims for additional payments, variation orders or extension of time by the Contractor/Consultant and make recommendations.
12. Valuing completed works and preparation of payment certificates
13. Periodic review and improvement of internal project formulation and management flow processes.
14. Provide input on policy analysis, formulation and implementation of economic infrastructure projects, PPP projects and investments.
15. Other relevant tasks assigned by Invest Maldives.

Minimum Qualification and Experience

1. The applicant must hold a Bachelors' Degree in Civil Engineering or a related field and must demonstrate a good command of knowledge in the areas of civil engineering, project management and coordination.
2. Minimum 3 years of experience in Civil Engineering/Project Management.

Skills and Other Requirements

1. Knowledge of building and construction methods, materials and legal regulations.

2. Proficiency in AutoCAD, MS Project, Structural Design Software and Microsoft Office package. Experience in structural design will be an added advantage.
3. Direct work experience in civil engineering and project management of infrastructure projects, including all aspects of process development and execution.
4. Experience in project formulation and tendering process. Experience in managing FIDIC contracts will be an added advantage.
5. Ability to effectively prioritize and execute tasks in high-pressure environments is crucial.
6. Ability to work on multiple projects and meet tight deadlines.
7. Experience in working both independently and in team oriented, collaborative environments is essential.
