### Consultancy firm to formulate a Scheme Information Reporting Framework

Aasandha Company Limited is a state-owned enterprise tasked with the administration and execution of the National Social Health Insurance scheme of the same name. As a company, Aasandha is the administrator for the provision of healthcare financing for all Maldivians through registered service providers and ensures accessibility and affordability of health services to the public under the scheme.

#### Objective and Purpose:

Aasandha Company Ltd seeks to hire a consultant, for a project to design and develop a Data Reporting Framework, for all service-related data of the National Social Health Insurance scheme. The purpose of the assignment is to enhance the data reporting and analysis capabilities of Aasandha Company in relation to the National Social Health Insurance scheme and develop the reporting capabilities of Aasandha to global Health Information reporting standards.

#### Scope of Work:

The consultant party will be required to work closely with the Aasandha leadership and relevant departments.

The consultant party will be required to:

1. Engage with relevant personnel within Aasandha Company Ltd to assess needs of the project, scope of work and appropriate approach to be undertaken.
2. Develop an in-depth understanding of data analysis needs and existing reporting capacities within Aasandha.
3. Engage with multiple stakeholders and assess Data Reporting and Analysis needs.
4. Recommend and incorporate global reporting standards including variables, parameters and tabulations etc.
5. Conduct training on Data Reporting Framework for Aasandha Staff.
6. Produce appropriate technical documentation for transfer of knowledge for future use.

#### Commencement and Duration of Work:

The successful consultancy party will be contracted for a period of **3 (Three) months** with the possibility of extension dependent on performance and implementation timeline.

#### Qualifications and Experience

1. Postgraduate Degree in a Health Statistics/Health Informatics/Health Information Management/IT or related field
2. A background or prior experience in development of Health Information Reporting Frameworks and Tools will be an added advantage.
