Republic of Maldives

## **REQUEST FOR PROPOSALS ON**

### **ICT Management Consultancy Service to support operations of the Ministry of Transport and Civil Aviation (System and Network Administrator)**

Reference number: (IUL)472/472/2023/34

Date: 14 June 2023

#### **SECTION 1**

##### **1. INTRODUCTION**

Due to Decentralization Act 7/2010 (Section 75), states that the revenue earned from various fees, the beneficiary must be the Island or the Atoll council. To implement this, the previous practices of the fees being charged for various registration and license fees in respect of Sea and Land Transportation now must be benefitted to the relevant Atoll or the Island Council. Administering this fee via Ministry of Transport and Civil Aviation in transferring to City, Atoll and Island council requires a sophisticated software to be designed, developed and implemented. The Ministry of Transport and Civil Aviation being the leading agency in arranging this fee transfer that are relevant to Atoll and Island council is now in the software implementation stage.

##### **2. HIRING OFFICE**

Ministry of Transport and Civil Aviation (MoTCA)

##### **3. PURPOSE OF CONSULTANCY**

Ministry of Transport and Civil Aviation is seeking well-qualified and experienced ICT and Management Consultancy service provider to work closely and assist the in-house IT section as System and Network Administrator. The Systems and Network Administrator is responsible for the design, implementation, and maintenance of the organization's computer systems and network infrastructure. This includes ensuring the availability, performance, and security of all systems and networks, as well as implementing and maintaining backups and disaster recovery plans. The Systems and Network Administrator also works closely with other IT staff to troubleshoot and resolve issues related to systems and networks.

## **SCOPE OF WORK (Description of services, activities, or outputs)**

### **Scope and diversity of assignment:**

- Design, implement, and maintain the organization's computer systems and network infrastructure
- Ensure the availability, performance, and security of all systems and networks
- Implement and maintain backups and disaster recovery plans
- Troubleshoot and resolve issues related to systems and networks
- Work closely with other IT staff to identify and resolve problems
- Stay current with new technologies and best practices related to systems and networks
