Handset Port	(RJ-9)
Headset Support	Yes
3-Way Conferencing	Yes
HD Speaker	Yes
HD Handset	Yes
Power Supply	POE and External power supply (Power adapter should be provided)
Warranty	Minimum 1 Year

Lot 4. Conference System

Quantity	1
Features	Specification
Audio System	
Wireless microphones:	Minimum of 4 tabletop Wireless microphones with excellent voice clarity and coverage
Ceiling-mounted microphones: (Optional)	Minimum of 4 omnidirectional ceiling microphones for optimal audio capture.
Speaker System:	High quality ceiling or wall-mounted speakers with balanced audio distribution across the conference room.
Video System	
Camera(s):	High-definition camera(s) capable of capturing clear video footage and supporting pan, tilt and zoom functionalities.
PTZ Controller	A control device for managing pan, tilt and zoom functions of the camera(s).
Integration:	Seamless integration with existing audio-visual equipment, including laptops, smartphones, and video conferencing platforms.
Control System	
Central Control Unit:	User-friendly control panel for managing audio, video and other system components.
Integration:	Seamless integration with existing audio-visual equipment, including laptops, smartphones and video conferencing platforms.
Connectivity and collaboration	
Video Conferencing:	Compatibility with popular video conferencing software (e.g., Zoom, Microsoft Teams, Google Meet) for remote participants.
Content Sharing: (Optional)	Ability to wirelessly share presentations, documents, and multimedia from laptops and mobile devices.
